Weigel, 1997-01-01 The report reviews lessons from the International Finance Corporation's IFC investment and advisory experience in the developing world which show the interactions between policy frameworks and the volume and structure of foreign direct investments FDI Case studies show how the Corporation promotes successful project structures and regulatory changes as it tries to attain the strongest development impact for investments In developing countries FDI has flowed mainly into manufacturing and processing industries In the past investment attractiveness had been closely linked to possession of natural resources or a large domestic market while production and trade globalization competitiveness as a location for investment and exporting have become the main determinants of attractiveness Sources of FDI in the past came almost exclusively from industrial countries though recently those sources have widened emerging from developing countries in their own right and for their own regions IFC as an international initiative to promote FDI in developing countries is liable to promote bilateral trade agreements bilateral and multilateral financial institutions and investment promotion programs its advisory role may vary from diagnostic studies overviewing constraints to FDI to investment policy studies giving specific solutions on either changes or strategies The study further looks at how policy environment is set and at finding investor opportunities through project financing largely structured as joint ventures The inherent fragile nature of joint ventures restricts foreign ownership thus limiting project structures however careful project design has led to successful operations by ensuring management and financial arrangements Still to maximize benefits an unfinished agenda of policy reform remains and as more countries open to FDI this integration will lead to an overall increase in FDI flows **Network Services Investment Guide** Mark Gaynor, 2003-05-13 Dies ist der erste Investmentleitfaden f r Netzwerkdienste Ein Bewertungsleitfaden f r Serviceauswahl Management und maximalen ROI Netzwerkbasierte Dienste beinhalten u a Internetzugang Anwendungsmanagement und Hosting Sprach und Datendienste sowie Videodienste Keiner dieser Dienste ist jedoch kostenlos und das Risiko zuviel f r ein Servicepaket zu zahlen von dem nur ein Service in Anspruch genommen wird ist entsprechend gro Der Network Service Investment Guide ist der erste Technik bzw Unternehmensleitfaden der wertvolle Hinweise gibt wie man mit Kosten und Verlusten bei der Implementierung einer starken service basierten Netzwerkarchitektur umgeht wenn der ROI aufgrund unvorhersehbarer allgemeiner Marktbedingungen drastisch fallen kann
