

Lexmark™ X65x Quick Reference

Loading paper and specialty media

Loading the standard or optional 250-sheet or 550-sheet tray

Although the 250-sheet tray and the 550-sheet tray are different in appearance, they require the same process for loading paper. Use these instructions to load paper in either tray.

1. Pull the tray out.

Note: Do not remove trays while a job prints or while busy appears on the display. Doing so may cause a jam.

2. Separate the width-guide tab inward as shown, and move the width-guide to the correct position for the paper size being loaded.

3. Unlatch the length-guide, separate the length-guide tab inward as shown, and slide the guide to the correct position for the paper size being loaded.

Notes:

- Use the size indicators on the bottom of the tray to help position the guides.
 - For standard paper sizes, lock the length-guide.
4. Flex the sheets back and forth to loosen them, and then fan them. Do not fold or wave the paper. Straighten the edges on a flat surface.

Lexmark X654de Manual
