

## SERVICING YOUR SHOP TOOL

### MOTOR AND LATHE BED...

Your Shop Tool motor is permanently lubricated and needs no further service. The Lathe Bed is pre-lubricated at the factory. After prolonged use, oil the lathe bed rails with vaseline or light machine oil for smoother operation.

### LATHE TAILSTOCK CENTER AND TAILSTOCK...

The plastic tailstock center may need a short "run-in" period before it turns freely in the tailstock. A light coating of vaseline on the large rounded end will help it along. Once it is running freely, no further lubrication will be necessary.

### DRILL BITS AND LATHE TOOLS...

These parts are made from hardened steel and have a long-lasting cutting edge. If, after prolonged use, these parts become dull, we suggest you order the inexpensive new parts available from Mattel, Inc.

### ADDITIONAL WOOD AND GLUE...

When you have used up the wood supplied with your Power Shop, you can buy more at a hobby shop or lumber yard. Your Mattel Power Shop works best with soft woods: mahogany, pine, or spruce. The sizes of wood supplied with your Shop are: 1"x1"x7" square and 1/2"x2"x9" flat. More white glue is available at most stores.
