**The Routledge Handbook of Translation and Religion**

Hephzibah Israel, 2022-12-19 The Routledge Handbook of Translation and Religion is the first to bring together an extensive interdisciplinary engagement with the multiple ways in which the concepts and practices of translation and religion intersect. The book engages a number of scholarly disciplines in conversation with each other including the study of translation and interpreting, religion, philosophy, anthropology, history, art history, and area studies. A range of leading and emerging international specialists critically engage with changing understandings of the key categories translation and religion as discursive constructs, thus contributing to the development of a new field of academic study translation and religion. The 28 contributions, divided into six parts, analyze how translation constructs ideas, texts, or objects as sacred or for religious purposes, often in competition with what is categorized as non-religious. The part played by faith communities is treated as integral to analyses of the role of translation and religion. It investigates how or why translation functions in re-constructing and transforming religions and for whom, and examines a range of sacred texts in translation from the written to the spoken, manuscript to print, paper to digital, architectural form to objects of sacred art, intersemiotic, scriptural texts, and where commentary, exegesis, and translation interweave. This Handbook is an indispensable scholarly resource for researchers in translation studies and the study of religions.

**Digital Media, Young Adults and Religion**

Marcus Moberg, Sofia Sjö, 2020-02-26 It has become increasingly clear that an adequate understanding of the contemporary processes of social, cultural, and religious change is contingent on an appreciation of the growing impact of social media. Utilising results of an unprecedented global study, this volume explores the ways in which young adults in seven different countries engage with digital and social media in religiously significant ways. Presenting and analysing the findings of the global research project Young Adults and Religion in a Global Perspective (YARG), an international panel of contributors shed new light on the impact of social media and its associated technologies on young people's religiosities, worldviews, and values. Case studies from China, Finland, Ghana, Israel, Peru, Poland, and Turkey are used to demonstrate how these developments are progressing, not just in the West but across the world. This book is unique in that it presents a truly macroscopic perspective on trends in religion amongst young adults. As such, it will be of great interest to scholars working in religious studies, digital media communication studies, sociology, cultural studies, theology, and youth studies.
