Studying Health Inequalities Wistow, Jonathan, Tim Blackman, David S. Byrne, Gerald Wistow, 2015-06-30 Addressing the implications of current British public health policies on the equal delivery of health services this book part of the Evidence for Public Health Practice series explicitly identifies inequalities in health service practices It offers an applied approach to researching understanding and dealing with this issue Drawing on complexity theory the authors use case studies to illustrate the problems to discuss them in real life terms and to illuminate their complexities for students and practitioners of public health health promotion and health policy *Jacaranda Key Concepts in VCE Health and Human Development Units 1 and 2 8e, LearnON and Print* Andrew Beaumont, Kim Weston, Fiona Alderson, Lisa O'Halloran, 2024-10-11

Public Policy to Reduce Inequalities across Europe Paul Cairney, Michael Keating, Sean Kippin, Emily St Denny, 2022-07-28 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations There is a broad consensus across European states and the EU that social and economic inequality is a problem that needs to be addressed Yet inequality policy is notoriously complex and contested This book approaches the issue from two linked perspectives First a focus on functional requirements highlights what policymakers think they need to deliver policy successfully and the gap between their requirements and reality We identify this gap in relation to the theory and practice of policy learning and to multiple sectors to show how it manifests in health education and gender equity policies Second a focus on territorial politics highlights how the problem is interpreted at different scales subject to competing demands to take responsibility This contestation and spread of responsibilities contributes to different policy approaches across spatial scales We conclude that governments promote many separate equity initiatives across territories and sectors without knowing if they are complementary or contradictory This outcome could reflect the fact that

ambiguous policy problems and complex policymaking processes are beyond the full knowledge or control of governments It could also be part of a strategy to make a rhetorically radical case while knowing that they will translate into safer policies It allows them to replace debates on values regarding whose definition of equity matters and which inequalities to tolerate with more technical discussions of policy processes Governments may be offering new perspectives on spatial justice or new ways to reduce political attention to inequalities *Geography* Stephen Scoffham, Colin Bridge, Terry Jewson, 1999 A practical teacher's resource for use at KS P4 6 this work provides structured lesson plans and linked copymasters putting the emphasis on direct teaching and clear targets for pupil achievement Written in line with the National Curriculum and Scottish 5 14 Guidelines it covers the main geographical topics as part of the curriculum **Innovative Curriculum**
