If You Like Exercise ... Chances Are You're Doing It Wrong Gary Bannister,2013-02-25 In If You Like Exercise Chances Are You re Doing It Wrong author Gary Bannister tells us that the power to be have all but destroyed the value of muscle isolation discredited the use of machines in general ignored everything related to the work of Arthur Jones and

replaced it with a ten cent solution He claims that until the field of exercise defines what is true and what is not it will never have the impact that it could Muscle strength the only factor that can produce human movement and the only factor that performs work is disappearing from today s training regimens This study and guide analyzes current concepts and training systems such as Pilates functional training TRX cross training kettlebells and more and compares their benefits to those of proper strength training to provide a clear picture for everyone If You Like Exercise Chances Are You re Doing It Wrong rekindles the high intensity strength training principles of Arthur Jones the founder of Nautilus Bannister focuses on the concepts of intensity form frequency duration number of repetition speed of movement and muscle fatigue supporting them with current research Logically applied proper strength training is the only system capable of satisfying all five potential benefits of exercise an increase in strength flexibility cardiovascular condition body composition and injury prevention
