Technology and Procurement Policy,2002 Managing Recruitment Function , Literature Review Sengsouvanh Soukamneuth,2006 *Raising the Educational Achievement of Secondary School Students: Summary of promising practices* ,1995 The New PhD Leonard Cassuto,Robert Weisbuch,2021-01-19 This book examines the failed graduate school reforms of the past and presents a plan for a practical and sustainable PhD For too many students today s PhD is a bridge to nowhere Imagine an entering cohort of eight doctoral students By current statistics four of the eight 50% will not complete the degree Of the other four two will never secure full time academic positions The remaining pair will find full time teaching jobs likely at teaching intensive institutions And maybe just maybe one of them will garner a position at a research university like the one where those eight students began graduate school But all eight members of that original group will be trained according to the needs of that single one of them who might snag a job at a research university Graduate school has been preparing students for jobs that don t exist and preparing them to want those jobs above all others In *The New PhD* Leonard Cassuto and Robert Weisbuch argue that universities need to ready graduate students for the jobs they will get not just the academic ones Connecting scholarly training to the vast array of career options open to graduates requires a PhD that looks outside the walls of the university not one that turns inward a PhD that doesn t narrow student minds but unlocks and broadens them practically as well as intellectually Cassuto and Weisbuch document the growing movement for a student centered career diverse graduate education and they highlight some of the most promising innovations that are taking place on campuses right now They also review for the first time the myriad national reform efforts sponsored by major players like Carnegie and Mellon that took place between 1990 and 2010 look at why these attempts failed and ask how we can do better this time around A more humane and socially dynamic PhD experience the authors assert is possible This new PhD reconceives of graduate education as a public good not a hermetically sealed cloister and it won t happen by itself Throughout the book Cassuto and Weisbuch offer specific examples of how graduate programs can work to reduce the time it takes students to earn a degree expand career opportunities after graduation encourage public scholarship create coherent curricula and rethink the dissertation attract a truly representative student cohort and provide the resources financial cultural and emotional that students need to successfully complete the program *The New PhD* is a toolbox for practical change that will teach readers how to achieve consensus on goals garner support and turn talk to action Speaking to all stakeholders in graduate education faculty administrators and students it promises that graduates can become change agents throughout our world By fixing the PhD we can benefit the entire educational system and the life of our society along with it **Quality and Safety in Radiotherapy** Todd Pawlicki,Peter Dunscombe,Arno J. Mundt,Pierre Scalliet,2010-12-20 The first text to focus solely on quality and safety in radiotherapy this work encompasses not only traditional more technically oriented quality assurance activities but also general approaches of quality and safety It includes contributions from experts both inside and outside the field to present a global view The task of assuring quality **Building a Sustainable**
