International Migration A Very Short Introduction:

International Migration Khalid Koser, 2016 Despite the fact that international migration continues to rise higher and higher on the political agenda the issue is often either misunderstood or misrepresented by the media In this Very Short Introduction Khalid Koser provides an objective and accessible global overview of migration and its impacts International Migration: A Very Short Introduction Khalid Koser, 2007-02-22 Why has international migration become an issue of such intense public and political concern How closely linked are migrants with terrorist organizations What factors lie behind the dramatic increase in the number of women migrating This Very Short Introduction looks at the phenomenon of international human migration both legal and illegal to reveal that migration actually presents opportunities that must be taken advantage of in light of the current economic climate The author debunks myths such as the claim that migrants take jobs away from local workers and that they take advantage of the health care system and western living conditions without returning any benefits of their own and reveals that society as we now know it can not function without them Not only do migrants fill a key gap in the domestic labour market they also have a significant impact on the economies of their home countries in places such as Mexico and the Philippines the remittances they send home often exceed official development aid Using interviews with migrants from around the world the author presents the human side of topics such as asylum and refugees human trafficking migrant smuggling development and the international labour force His goal throughout is to allow readers to see beyond the negative spin usually given the subject by the media and politicians and come to their own conclusions on the international migration situation today ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *International Migration* Khalid Koser, 2007-02-22 This Very Short Introduction examines the phenomenon of international human migration both legal and illegal Taking a global look at politics economics and globalization the author presents the human side of topics such as asylum and refugees human trafficking migrant smuggling development and the international labour force Understanding International Migration Ross Bond, 2022-11-30 Uniquely informed by a sociological perspective this major new textbook introduces the underlying origins and consequences of international migration placing individuals within a broader social cultural and historical context This comprehensive introduction analyses international migration and its effects on those who migrate their families and their places of origin and destination Drawing on illustrative examples from around the world the book covers the major theories concerning the origins of international migration and the manner degree and consequences of migrants incorporation into the societies to which they move It also includes in depth discussion of how international migration is relevant to key issues gender the family and religion the so called refugee crisis in much of the developed world and offers insights throughout into cutting

edge research from emotions and lifestyle migration to the proliferation of digital communication technologies This text expertly offers students the necessary skills to unpack common myths that are used to inform policy and media discourse including abstract distinctions between refugee and economic migrant the complex and ambiguous nature of migrant national identity and that while many richer countries of the world are characterized by a perceived refugee crisis it is in fact poorer and developing countries that see the vast majority of the world's refugees and displaced persons

Migration Michael Samers, Michael Collyer, 2016-12-08 While the subject of migration has received enormous attention in academic journals and books across the social sciences introductory texts on the matter are few and far between Even fewer books have explored migration through a critical and explicit engagement with spatial concepts Now in its second edition *Migration* remains the only text in more than a decade that emphasizes how geographical or spatial concepts can be used critically to understand migration The multi disciplinary text draws on insights from human geography political science social anthropology sociology and to a lesser extent economics All of the chapters focus on key terms theories concepts and issues concerning migration and immigration The book argues that in the context of migration two opposing spatial positions have emerged in the wake of the critique of methodological nationalism On one hand is the significance of transnationalism and on the other the importance of sub national or local processes Both require more nuance and integration while many of the concepts and theories which have thus far neglected space or have not been treated spatially need to be re written with space in mind Pedagogically the text combines a carefully defined structure accessible language boxes that explore case studies of migrant related experiences in particular places annotated suggestions for further reading useful websites and relevant films and summary questions for student learning at the end of each chapter *Migration* provides a critical multi disciplinary advanced and theoretically informed introduction to migration and immigration Revised and updated with new material new maps and illustrations and an accompanying website <https://migration2ndedition.wordpress.com> it continues to be aimed at advanced undergraduates and Masters level graduate students undertaking courses on migration and immigration

International Students and Scholars in the United States Heike C. Alberts, Helen D. Hazen, 2013-02-12 An international team of academics and experienced practitioners here bring together scholarship on academic migrants to the United States the world's top recipient of academic talent They examine the multidirectional migration patterns of academic migrants adaptation challenges and the roles played by international students and faculty

Handbook of Migration and Globalisation Anna Triandafyllidou, 2024-04-12 This thoroughly revised and updated Handbook brings together an international range of contributors to highlight the deep interdependence between migration and globalisation and explore the impact of economic social and political globalisation on international population flows It provides an interdisciplinary perspective on a discussion that has been intensifying and diversifying over the past 25 years This title contains one or more Open Access chapters

Diplomacy, Communication, and Peace William Maley, 2020-11-15 This book is composed of

interconnected essays which reflect on challenging new issues related to diplomacy communication and peace This book begins by drawing out some of the challenges for diplomacy that arise from modern theories of semantics and of strategic communication as well as those posed by the need for secrecy and by the activities of agents of influence It then proceeds to examine important issues in contemporary diplomacy including refugee diplomacy humanitarian diplomacy sovereignty norms and consular activities It concludes with an exploration of dilemmas that confront attempts to promote peace through multilateral means such as the limitations of peacemaking diplomacy the difficulty of promoting democratic governance and the problems associated with dealing with morally repugnant actors The book is grounded in the conception of diplomacy as a social practice with multiple players and recognises that the state has many different elements and that state actors live in worlds shaped not just by their relations with other states but also by their own complex domestic politics This book will be of much interest to students of diplomacy foreign policy and International Relations Mobility Patterns and Experiences of

the Middle Classes in a Globalizing Age Monica Laura Vazquez Maggio, 2017-05-11 The book presents insights from a mixed methodology study that examines recent mobility patterns exhibited by the middle classes Its major contributions are two fold theoretically it advances the conceptualisation of middle class migration empirically it analyses the migratory motivations of a relatively new Latin American group in Australia The accelerated insertion of the Mexican society into globalisation processes is strongly linked not only to the growing participation in migration phenomena but also to people s outflow to new destinations Although studies of Mexican emigration are vast research on Mexican skilled migration is scarce and research that focuses on mobility to non USA destinations is even scarcer Mexicans are a relatively new addition to Australia s multicultural society and little is known about this group s profile and why they choose to migrate to Australia Employing a mixed methodology approach the book provides a comprehensive portrait of migration in a new group

Out of Africa Giovanni Carbone, The EU is struggling to cope with the so called migration crisis that has emerged over the past few years Designing the right policies to address immigration requires a deep understanding of its root causes Why do Africans decide to leave their home countries While the dream of a better life in Europe is likely part of the explanation one also needs to examine the prevailing living conditions in the large and heterogeneous sub Saharan region This Report investigates the actual role of political economic demographic and environmental drivers in current migration flows It offers a comprehensive picture of major migration motives as well as of key trends Attention is also devoted to the role of climate change in promoting migration and to intra continental mobility two thirds of sub Saharan migrant flows start and end within the region Two country studies on Eritrea and Nigeria are also included to get a closer sense of local developments behind large scale migration to Europe

Musical Modernism in Global Perspective Björn Heile, 2024-05-30 The first study of the global dimensions of musical modernism and its transnational diasporic network of composers musicians and institutions

Migrant Women's Voices Linda McDowell, 2016-02-25 Between 1945 and the new century millions of women including

mothers and migrants joined the labour force These changes are brought to life through the stories of migrant women working in factories and hospitals banks care homes shops and universities over a period of 60 years Migrant Women s Voices is an autobiography of the post war period as Britain became a multi cultural society and waged work the norm for most women McDowell illustrates the shift in migration patterns as post imperial migrants to the UK replaced the immediate post war pattern of migrants from war torn Europe and who were then themselves joined by migrants from an increasingly diverse range of countries as the 20th century drew to a close Australian-Latin American Relations E. Kath,2016-06-14 Until recently Australia and Latin America were considered irrelevant to one another The prevailing perception in Australia had been that Latin America was too remote disconnected and politically irrelevant to warrant serious scholarly or public attention In recent years this perception has rapidly changed with Australian universities seeking to attract Latin American students new diplomatic relations emerging investment in mining and other business sectors expanding and a growing fascination in Australia with Latin American food music dance and other forms of popular culture These rapid developments can only properly be understood within the context of broader global transformations underway including shifts in power relations between the Global North and Global South the rise of key Latin American economies major technological developments and ever increasing global interconnectivity This pioneering interdisciplinary book ventures into the new space of Australian Latin American relations exploring multiple dimensions of the rapidly changing landscape within a global context *Migration and Political Theory* Gillian Brock,2021-01-28 Migration dominates contemporary politics across the world and there has been a corresponding surge in political theorizing about the complex issues that it raises In a world in which borders seem to be solidifying while the number of displaced people soars how should we think about the political and ethical implications of human movement across the globe In this book Gillian Brock one of the leading figures in the field lucidly introduces and explains the important historical empirical and normative context necessary to get to grips with the major contemporary debates She examines issues ranging from the permissibility of controlling borders and the criteria that states can justifiably use to underpin their migration management policies through to questions of integration inclusion and resistance to unjust immigration laws *Migration and Political Theory* is essential reading for any student scholar or general reader who seeks to understand the political theory and ethics of migration and movement in the twenty first century

Singing the Rite to Belong Helen Phelan,2017-04-03 This book explores the way in which singing can foster experiences of belonging through ritual performance Based on more than two decades of ethnographic pedagogical and musical research it is set against the backdrop of the new Ireland of the late 20th and early 21st centuries Charting Ireland s growing multiculturalism changing patterns of migration the diminished influence of Catholicism and synergies between indigenous and global forms of cultural expression it explores rights and rites of belonging in contemporary Ireland Helen Phelan examines a range of religious educational civic and community based rituals including religious rituals of new migrant

communities in borrowed rituals spaces baptismal rituals in the context of the Irish citizenship referendum rituals that mythologize the core values of an educational institution a ritual laboratory for students of singing and community based festivals and performances Her investigation peels back the physiological emotional and cultural layers of singing to illuminate how it functions as a potential agent of belonging Each chapter engages theoretically with one of five core characteristic of singing resonance somatics performance temporality and tacitness in the context of particular performed rituals Phelan offers a persuasive proposal for ritually framed singing as a valuable and potent tool in the creation of inclusive creative and integrated communities of belonging

Migrant Smuggling A. Triandafyllidou, Thanos Maroukis, 2012-04-05 This book explores the phenomenon of irregular migration notably the organization and role of migrant smuggling networks in aiding irregular migration from Asia and Africa to Europe It also discusses how migration control policies in southern European countries shape the migrant smuggling phenomenon and the smuggling business

Women Writers of the New African Diaspora Pauline Ada Uwakweh, 2022-12-30 This book makes a significant addition to the field of literary criticism on African Diaspora literatures In one volume it brings together the novels of eight transnational African Diaspora women writers Yaa Gyasi Chika Unigwe Chimamanda Adichie Imbolo Mbue NoViolet Bulawayo Aminatta Forna Taiye Selasi and Leila Aboulela and positions them as chroniclers of African immigrant experiences The book inspires critical readings of these writers works by revealing emerging trends in women's literature as they are being determined and redefined by immigration As transnational subjects the writers engage various meanings of mobility and exhibit innovative aesthetic styles they create awareness on gender identities and transformations constructions of home and belonging as well as the politics of citizenship in the hostland The book also highlights the importance of reverse migrations and performance returns to the homeland as an expression of human desire for home and belonging and taken as a whole it enhances our understanding of how migration and transnational existence are re shaping immigrant subjects This book will be of interest to scholars students and researchers of African Diaspora literatures and gender studies who will find this book beneficial for investigating critical trends approaches to transnational literature and for comprehending the diasporic burdens that transnational immigrants bear

Migration in Irish History 1607-2007 Patrick Fitzgerald, Brian Lambkin, 2008-10-27 Migration people moving in as immigrants around as migrants and out as emigrants is a major theme of Irish history This is the first book to offer both a survey of the last four centuries and an integrated analysis of migration reflecting a more inclusive definition of the people of Ireland

Travelling Europe Gail Mobley, Zainab Batul Naqvi, Daria Sinziana Neagu, 2015-06-18 Currently the borders that delineate both physical and ideological spaces are constantly shifting within and around Europe Given this in 2014 the Graduate Centre for Europe GCfE decided to dedicate their annual conference to the theme of travel and tourism in Europe This collection consists of the papers accepted for presentation as part of the 8th annual conference of the GCfE The yearly colloquium provides an opportunity for postgraduates across a
