where ELF English as a lingua franca studies both from an empirical and theoretical orientation have the potential for significant developments is in our understanding of the relationships between language culture and identity ELF challenges traditional assumptions concerning the purposed inexorable link between a language and a culture Due to the multitude of users and contexts of ELF communication the supposed language culture and identity correlation often conceived at the national level appears simplistic and na ve However it is equally na ve to assume that ELF is a culturally and identity neutral form of communication All communication involves participants purposes contexts and histories none of which are neutral Thus we need new approaches to understanding the relationship between language culture and identity which are able to account for the multifarious and dynamic nature of ELF communication Research Questions in Language Education and Applied Linguistics Hassan Mohebbi, Christine Coombe, 2022-01-13 This volume encompasses the range of research questions on language related problems that arise in language teaching learning and assessment The 150 chapters are written by experts in the field who each offer their insights into current and future directions of research and who suggest several highly relevant research questions Topics include but are not limited to language skills teaching language skills assessment and testing measurement feedback discourse analysis pragmatics semantics language learning through technology CALL MALL ESP EAP ERPP TBLT materials development genre analysis needs analysis corpus content based language teaching language teaching and learning strategies individual differences research methods classroom research form focused instruction age effects literacy proficiency and teacher education and teacher development. impossible to properly address all that interests them Hence I wholeheartedly welcome this most relevant and innovative addition to the research literature in the field of TESOL and Applied Linguistics Coombe and Mohebbi have created a real tour de force that stands to inform budding researchers in the field for many years to come Additionally the cutting edge depiction of the field and all it has to offer will no doubt update the research agendas of many seasoned researchers around the world The 150 chapters are organized in a most powerful yet deceptively simple way offering a positioning within the topic suggesting questions that might direct inquiry and offering a basic set of bibliographic tools to start the reader in the path towards research What is more the nine sections in which the chapters are organized leave no area of the field unexplored Dr Gabriel D az Maggioli Academic Advisor Institute of Education Universidad ORT del Uruguay President IATEFL Chapter Metacognition in Academic Writing Learning Dimensions is available open access under a Creative Commons Attribution 4 0 International License via link springer com Advances in Maltese Linguistics Benjamin Saade, Mauro Tosco, 2017-09-25 This volume is a collection of up to date articles on Maltese on all linguistic levels demonstrating the variety of topics Maltese has to offer for linguists of all specializations Two diachronic studies discuss the early contact of Maltese and Sicilian Arabic Avram and the possible lexical influence of Occitan Catalan on Maltese in the 13th 15th century Biosca Castellanos Fabri Borg shed light on the rules that govern verb sequences in Maltese pl presents a corpus analysis of the syntactic and semantic properties of focus constructions in Maltese Stolz Ahrens analyze the behavior of prepositional phrases with identical heads under coordination Wilmsen Al Sayyed study the use of mu as a negator in Maltese and beyond Puech presents a detailed phonological analysis of Maltese and Tunisian Arabic based on prosody syllabic structure and stress Azzopardi Alexander gives a fine grained analysis of phonological features in Maltese English placing speakers on a Maltese English continuum Sciriha takes a visual approach to multilingualism in Malta with her quantitative study of public and private signs Finally Versteegh offers a thought provoking perspective on the notion mixed Globalisation and Second Language Identity Manfred Man-fat Wu, 2024-08-30 This book focuses language and its viability on how globalisation influences and affects second language L2 identity including both benefits and caveats of globalisation The author takes a philosophical perspective to the topic drawing on the theoretical foundations of Kant and Hegel to explore positive and negative impacts of issues related to globalisation such as human rights and identity reconstruction and argues that morality should be considered as a key component in fostering L2 identity Since L2 autonomy the capacity to control the psychological and socio cultural dimensions related to L2 learning Benson 2001 is an integral part of L2 identity and contributes to successful language learning the author considers how to reconceptualise and foster L2 autonomy in the age of globalisation He finds that globalisation has created new challenges and demands for L2 teachers and explores how far they must transform their identity for effective teaching including recommendations for the future This book will be of particular interest to students teachers and academics in fields including applied linguistics language education language
