## **L'espace Cinématographique Dramaturgie Antoine Gaudin:**

*L'espace cinématographique* Antoine Gaudin, 2015-09-02 L'espace constitue un enjeu majeur des réflexions esthétiques et philosophiques sur le cinéma autour duquel s'articule toute l'histoire des formes filmiques. Comment les films représentent-ils l'espace ? Comment l'organisent-ils par la mise en scène, le montage et le rapport image-son ? Quel espace vivons-nous au cinéma ? Comment influencent-ils notre façon de percevoir le monde et d'y penser notre situation ? Pour répondre ces questions, l'ouvrage définit l'espace cinématographique comme une puissance dynamique de l'image en mouvement dotée d'un fort impact sensoriel sur ses spectateurs. Cette approche cinématographique et rythmique de l'espace trouve son aboutissement dans un concept original : l'image-espace. L'ouvrage s'appuie sur l'analyse de nombreux films et notamment sur le travail de réalisateurs tels que Buster Keaton, Orson Welles, Michelangelo Antonioni, Andrei Tarkovski, Gus Van Sant ou encore Jia Zhangke. Il se révèle particulièrement fondamental pour comprendre les grandes évolutions du cinéma contemporain. *Philosophy and Film* Christina Rawls, Diana Neiva, Steven S. Gouveia, 2019-04-25 This volume collects twenty original essays on the philosophy of film. It uniquely brings together scholars working across a range of philosophical traditions and academic disciplines to broaden and advance debates on film and philosophy. The book includes contributions from a number of prominent philosophers of film including Noël Carroll, Chris Falzon, Deborah Knight, Paisley Livingston, Robert Sinnerbrink, Malcolm Turvey and Thomas Wartenberg. While the topics explored by the contributors are diverse, there are a number of thematic threads that connect them. Overall, the book seeks to bridge analytic and continental approaches to philosophy of film in fruitful ways. Moving to the individual essays, the first two sections offer novel takes on the philosophical value and the nature of film. The next section focuses on the film as philosophy debate. Section IV covers cinematic experience while Section V includes interpretations of individual films that touch on questions of artificial intelligence, race and film, and cinema's biopolitical potential. Finally, the last section proposes new avenues for future research on the moving image beyond film. This book will appeal to a broad range of scholars working in film studies, theory and philosophy. *Indefinite Visions* Beugnet Martine Beugnet, 2017-07-07 Moving image culture seems to privilege the instantly identifiable, the recognizable face, the well-timed stunt, the perfectly synchronized line of dialogue. Yet perfect in-focus visibility does not come naturally to the moving image, and if there is one visual effect the eye of the camera can record better than the human eye, it is blur. Looking beyond popular media to works of experimental cinema and video art, this groundbreaking collection addresses the aesthetics and politics of moving images in states of decay, distortion, indistinctness and fragmentation. A range of international scholars examines what is at stake in these images: sometimes radical foregrounding of materiality and mediation, or of evanescence and spectrality, as well as their challenging of the dominant position accorded to legible images. How have artists and filmmakers rendered the indefinite image, and what questions does it pose? With a range of approaches from aesthetics to phenomenology to production studies, the authors in this volume investigate techniques, themes and concepts that emerge

from this wilful excavation of the moving image's material base      **Michel Ocelot** Laura Buono, 2023-12-01 This unique book examines the career of Michel Ocelot from his earliest works to his latest research and productions including an interview regarding his latest film *Le Pharaon le Sauvage et la Princesse* 2022 The book highlights the director's role in the panorama of contemporary animated cinema and his relationship with the tradition both artistic and cinematographic The book carefully analyses the ethical and social nature of Ocelot's work to underscore the duality of the director's oeuvre both artistic and social using an interdisciplinary approach that blends film and aesthetic criticism with gender studies and decolonial thought Particular attention will be given to the themes of multiculturalism discrimination and treatment of women which are at the centre of many current cultural debates The book will be of interest to an audience of experts animation enthusiasts and film scholars as well as to a wider readership interested in learning about the poetics of Kirikou's father      Agrégation anglais 2026 - Mark Twain. Adventures of Huckleberry Finn et le film de Wes Anderson, Moonrise Kingdom. Frédéric Lefrançois, Rédouane Abouddahab, collectif, 2025-08-26 Ouvrage de préparation au concours de l'Agrégation externe d'anglais      Weaving Words into Worlds Caroline Durand-Rous, Margot Lauwers, 2023-10-10 Weaving Words into Worlds comes as the third spinoff of the international ecopoetics conference organized in Perpignan in 2016 Reflecting upon how the many stories we tell directly influence the world we live in each of the contributions in this international volume directs our attention to the constant ecopoetic weaving of word to the world at work via the many entanglements between mind matter and meaning whether on a local or a global scale It encapsulates how the words stories and concepts we humans articulate as we try to make sense of the world we inhabit give part of its shape to the web of ecological relations that we depend on for survival It seeks to cast light on the disenchanting and reenchancing powers of stories and poesis in general as stories retain the power to make us either become oblivious to and destroy or to feel and honor the many complex ties between the multitudinous nature cultures intertwined within the fabric of a multispecies world always in the making This book offers a total of fourteen articles written by international scholars in ecocriticism and ecopoetics who by their analyses of literature and/or films and the political subtext they thus render visible aim at showing how the study of environmentally minded media may renew our attention to the entangled agencies of the human and the more than human realm Thus this work offers to counter a reproach ecocriticism has often been met with namely the over presence of US scholars and the lack of diversity in subjects in the field since the articles presented provide a wide variety of approaches and topics with examples of UK and Native American literature Polynesian myth graphic novels or haiku In doing so the book expands on the fields of ecocriticism and ecopoetics adding to this branch of study and enriching it with high quality academic studies      *Le vécu du cinéma* Hanna Trindade, 2025-01-22 Le cinéma cherche recréer des expériences humaines en exprimant la relation que nous entretenons avec notre réalité Un film n'est pas seulement l'enregistrement mécanique de faits mais une manifestation visuelle d'une interprétation du monde Mais comment le spectateur fait-il l'expérience de cette forme

spécifique d'expression de la vie elle-même. Ce livre propose une réponse à cette question à travers le point de vue de la philosophie husserlienne. Le but de la phénoménologie d'Edmund Husserl n'est pas la description des choses elles-mêmes mais de la structure de leur expérience par le sujet. Son analyse vise à dévoiler comment la réalité apparaît à la conscience en manifestant un sens dans cette apparition. Si nous prenons les films comme une expression de l'expérience du réalisateur par l'expérience du spectateur, alors la phénoménologie devient une perspective particulièrement apte à comprendre le cinéma. Elle nous permet de comprendre la fois comment les films manifestent un sens de la vie et comment se structure l'expérience du spectateur de ce type de manifestation. Par conséquent, l'approche husserlienne nous permet de saisir l'universalité de l'expérience filmique, c'est toujours l'affaire d'une conscience engagée dans un acte d'appréhension d'un objet avec une forme et un contenu spécifiques. Comment se constitue cette relation ?

*Dictionnaire théorique et critique du cinéma - 3e éd.* Jacques Aumont, Michel Marie, 2016-10-12. Le cinéma est devenu depuis près d'un demi-siècle objet d'enseignement, de recherches et d'études. Un vocabulaire particulier s'est progressivement imposé, constitué la fois de termes spécifiques et de concepts nouveaux propres à analyser le langage cinématographique. D'Abstrait Zombi, ce dictionnaire réunit près de 600 entrées relevant des approches théoriques et critiques du cinéma : notions clés en esthétique, filmologie, sémiotique, ainsi que notices sur les critiques et les théoriciens, parfois aussi cinastes : Eisenstein, Hitchcock, Pasolini, Godard, qui ont contribué à enrichir la réflexion sur le 7e art. Chaque entrée est replacée dans son contexte, illustrée d'exemples, mise en relation avec d'autres et suivie d'indications bibliographiques. Cette 3e édition s'enrichit d'une centaine d'articles faisant le point sur l'état des lieux, conomique, technique, critique, et éclairant l'œuvre de toute une génération de théoriciens. Un outil indispensable pour l'étudiant en cinéma et audiovisuel, le professionnel ou le cinéphile soucieux de mieux connaître son domaine de prédilection.

*Silence(s) dans le cinéma contemporain* Louis Daubresse, 2024-03-07. To probe the place of silence in contemporary cinema obliges us to examine not only its audiovisual staging but also what it implies, suggests or communicates to the spectator.
