Letters Using Architecture

Letters Using Architecture:

Standard Letters in Architectural Practice David Chappell, 2008-04-15 Architects and contract administrators spend a great deal of time writing letters of various types. Many of them are routine and repetitive in character but they require proper consideration if potentially dangerous liability situations are to be avoided. This book provides some 285 standard letters for use at all stages of project administration. To assist the user they are grouped into sections which correspond with the RIBA Plan of Work. The aim is to cover all the common situations encountered in practice. The book has been revised to take account of the latest contract revisions and many letters have been added. Unless otherwise stated all letters are suitable for use with JCT 98 WCD 98 IFC 98 MW 98 GC Works 1 1998. The latest edition also takes account of the three new RIBA Standard Forms of Agreement for Appointment of an Architect SFA 99 CE 99 and SW 99. Although primarily written for architects and contract administrators the book will also be of use to project managers and employers' agents under WCD 98. Contractors will also find much of interest.
