

# MacGREGOR 25

The MacGregor 25 is one of the fastest boats of its class, the wing that underfoot gives her high speed surfing and planing, and the deep, efficient keel provides stability and lift for excellent performance sailing into the wind. Easy with its simplified construction, it is easy to sail, it is large enough to be stable and comfortable, yet small and light enough to be easily handled by one person. It is possible to leave it tied up in a MacGregor 25 in a simple afternoon, and it is also ideal for a family. The MacGregor 25 features a 60% pre-rigged masting system, which is the most thoroughly tested and proven method of combining self-righting stability and high performance with the shallow draft hulls for easy launching and safe trailering. A mast which articulates swings the mast back and up to permit easy launching and beaching. The cockpit is 8' 7" long, and extends to 8' inside the cabin. There is ample storage for all the gear you will require for comfortable cruising.

**RAISING THE MAST:** Hoist the mast to the rear and pin the bottom of the mast to the longest mast step. (2) & (3) Raise the mast. It is light, and not too hard to lift. The mast can be raised to any angle if a second person stands on the foredeck and pulls.

**LAUNCHING:** Back the trailer in until the boat starts to float free. Tie a line to the bow and give the boat a gentle shove. When the boat clears the trailer, pull it back to the ramp to stop, say this cry. Then as the process is repeat the boat is in the water.
