Abstract

A hospital is often seen dense with population from all walks of life; it is a dwelling place of healthy and ill persons. This study explored the immunization status, safety hospital practices and compliance to standard precautionary measures of BSN Students in University of Mindanao, Davao City, during academic year 2007-2008. A total of 159 respondents were selected through universal sampling and in the end, the following results was sought:

Of the fourteen (14) clinical wards, health care services were provided more by the respondents in Obstetrics, Gynecology and Pay. The most attended clinical wards include; the Operating room, Pediatric ward, General ward, Pay ward, and the Delivery Room. Respondents immunization status is very low in HA, TT₃, TT₄, and TT₅; Low in DPT, OPV, D1, TT₂ and HB₃ dosages. In BCG, immunization is moderate; high in TT₁ dosage; and very high in HB₁ as well as HB₂. Very few students were completely immunized. The overall hospital safety practices are extensive while the level of compliance to general standard precautionary measures against occupational diseases is very high. However, if based on the types of disease transmission, the result is low for direct transmission, very high for airborne transmission and high for vehicular transmission. The review, modification and strengthening of University policies in relation to clinical instruction among BSN Students should be carried out by the institution.

Scientific Writing Hans F. Ebel,Claus Bliefert,William E. Russey,2004-03-12 Most scientists live in a publish or perish environment but few would describe themselves as brilliant or enthusiastic writers Coming to the aid of all those wishing to improve the quality of their scientific writing established researchers and aspiring students alike three experienced authors scientists from differing backgrounds and cultures have compiled this classic guide This new edition has been completely revised to reflect dramatic changes in communication over the past 15 years The primary emphasis is on writing techniques accurate expression adherence to accepted standards and above all clarity but the authors also venture into communication technology and organizational as well as ethical aspects of science Numerous appendices and a particularly comprehensive index complete this highly useful book The authors have a passion not only for clarity and economy of style but also for precision and consistency Nature A wealth of information contained in a single book of manageable proportions Students reporting on a simple laboratory experiment and their teachers preparing a paper or lecture will both find this book a constant companion European Science Editing The book under review claims we know of no book as broad in its coverage as critical in its analysis of existing trends and as international in its scope This claim is immodest but accurate Trends in Pharmacological Sciences TICA 3 Arthur W. Elias,1967 Communicating Science: A Practical Guide For Engineers And Physical Scientists Edith S Boxman,Reuven (Raymond) L Boxman,2016-12-28 The book under review is indeed a guide and a practical one too but it is not only for engineers and physical scientists it is useful to all those who communicate technical information or need to and want to do the job well The book achieves the objectives every PhD student may not want to read the book but should and will not regret it European Science EditingRead this book before you write your thesis or journal paper Communicating Science is a textbook and reference on scientific writing oriented primarily at researchers in the

physical sciences and engineering It is written from the perspective of an experienced researcher It draws on the authors experience of teaching and working with both native English speakers and English as a Second Language ESL writers For the range of topics covered this book is relatively short and tersely written in order to appeal to busy researchers Graduate students and early career researchers will be guided through the researcher s basic communication tasks writing theses journal papers and internal reports presenting lectures and posters and preparing research proposals Extensive best practice examples and analyses of common problems are presented Advanced researchers who aim to commercialize their research results will be introduced to business plans and patents so that they can communicate optimally with patent attorneys and business analysts Likewise advanced researchers will be assisted in conveying the results of their research to the industrial and business community governmental circles and the general public in the chapter on popular media Researchers at all levels will find the chapter on CV s and job hunting helpful The Writing Well chapter will assist researchers to improve their English usage in scientific writing This chapter is oriented both at native English speakers who have an intuitive command of English but often lack formal instruction on grammar and structure and non native English writers who often have had formal instruction but lack intuitive grasp of what sounds good Mentors will find the book a useful tool for systematically guiding their students in their early writing efforts If your students read this book first you will save time Communicating Science may serve as a textbook for graduate level courses in scientific writing

How to Write and Publish a Scientific Paper Barbara Gastel, Robert A.
