Everrett,2015-01-29 Stereo is everywhere The whole culture and industry of music and sound became organized around the principle of stereophony during the twentieth century But nothing about this not the invention or acceptance or ubiquity of stereo was inevitable Nor did the aesthetic conventions technological objects and listening practices required to make sense of stereo emerge fully formed out of the blue This groundbreaking book uncovers the vast amount of work that has been required to make stereo seem natural and which has been necessary to maintain stereo s place as a dominant mode of sound reproduction for over half a century The essays contained within this book are thematically grouped under Audio Positions Listening Cultures and Multichannel Sound and Screen Media the cumulative effect is to advance research in music sound and media studies and to build new bridges between the fields With contributions from leading scholars across several disciplines Living Stereo re tells the history of twentieth century aural and musical culture through the lens of stereophonic sound

**Dynamic Supply Chains ePub** John Gattorna,2013-07-25 John Gattorna is one of the most original thinkers in the fast changing arena of supply chain management He has pioneered the idea of dynamic alignmentwhich is so powerfully presented in this ground breaking book Martin Christopher Professor of Marketing Logistics Cranfield School of Management Supply chains are at the heart of competitive advantage in business today If supply chains are managed successfully companies will be able to deliver their products and services to customers in a smart cost effective way The key to successful supply chain management is recognising that it s people who really drive the living supply chains that are at the heart of businesses Supply chains are powered by the energy and expertise of employees and suppliers and by the changing wants and needs of customers John Gattorna calls this principle of matching changing customer needs and desires with different supply chain strategies dynamic alignment To secure space in a new market to grow or keep existing markets companies have to get their products out there faster They need to be the first with new products and services and the first to match them with particular customer groups The dynamic alignment model gives a structured way of linking customer expectations to the operational side of business while maintaining the flexibility to systematically modify fulfilment processes as customers inevitably change their buying preferences
