**The Exceptional Parent**, 1994 **Journal of Rehabilitation R & D**, 2008 Journal of Rehabilitation Research & Development, 1988 Seating and Wheeled Mobility Michelle L. Lange, Jean L. Minkel, 2024-12-30 Fully updated and expanded in its second edition Seating and Wheeled Mobility A Clinical Resource Guide presents clinical assessment considerations when working with a person with a mobility disability The book provides a wide spectrum of information from foundational information for those practitioners who are new to the field to in depth population specific information for practitioners who perhaps have not worked with a particular population in the past The book is divided into sections each section addressing a different area of clinical practice in wheelchair seating and mobility The first section is an in depth presentation of the assessment process and pressure management The range of available seating supports is presented as

part of the product selection process including matching the person's needs with available technology. The second section focuses on 24-hour postural care. Three types of sitters are presented: hands-free, hands-dependent, and prop sitters. Included is the most current method to measure and describe the seated person and related support surfaces needed when recommending a device. The third section lays the foundation for clinical decision making around the selection and fit of the most appropriate wheeled mobility device: manual power wheelchair or scooter. The fourth section provides in-depth clinical applications for each mobility category. On-time mobility for the very young, power seating, and mobility skills training are addressed. The fifth section provides population-specific clinical application of position pressure management and mobility for the pediatric, geriatric, and bariatric populations as well as persons with both degenerative and complex neuromuscular impairments. The sixth section presents additional considerations when working with persons who are aging with a disability: considerations of the environment of use, safe transport of a wheelchair, and the application of wheelchair standards in the clinic. Finally, measuring outcomes throughout the service provision process and a look at the past, present, and future of complex rehab technology is included. Richly illustrated throughout, this book has been carefully designed to support occupational and physical therapists, suppliers, distributors, and funders/payers who are interested in wheelchair seating and mobility assessment and applications.

*The Rehabilitation Specialist's Handbook* Serge H Roy, Steven L Wolf, David A Scalzitti, 2012-12-21. The 4th Edition of the gold standard of rehabilitation resources is now in full color and thoroughly revised and updated to reflect the art and science of practice today. A compendium of frequently used but rarely memorized information organized for easy reference, it covers an extraordinary breadth of topics from the full range of basic scientific information: neuroanatomy and clinical neurology, osteology and clinical orthopedics, general anatomy, cardiac and pulmonary anatomy to the treatments and methods used in modern rehabilitation practice.

*EBOOK: Basic Marketing* William Perreault, Joseph Cannon, E. Jerome McCarthy, 2013-04-16. Built on a strong foundation, *Basic Marketing* 18e with ConnectPlus and LearnSmart provides an integrated teaching and learning solution for presenting the four Ps framework and managerial orientation with a strategy planning focus. The Perreault franchise was the pioneer of the four Ps in the introductory marketing course. The unifying focus of *Basic Marketing* has always been on how to make marketing decisions in deciding what customers to focus on and how best to meet their needs. Consistent with our belief in continuous quality improvement, this edition has been critically revised, updated, and rewritten to reflect new concepts, new examples, recent best practices, and to tightly integrate the best digital tools in the industry for ensuring that students are prepared to engage in classroom lectures and pursue future business and marketing careers.
