Guidelines on the Management of Latent Tuberculosis Infection WHO,World Health Organization,2015-01-15
BACKGROUND Latent tuberculosis infection LTBI defined as a state of persistent immune response to prior acquired Mycobacterium tuberculosis antigens without evidence of clinically manifested active TB affects about one third of the world s population Approximately 10% of people with LTBI will develop active TB disease in their lifetime with the majority developing it within the first five years after initial infection Currently available treatments have an efficacy ranging from 60% to 90% Systematic testing and treatment of LTBI in at risk populations is a critical component of WHO s eight point framework adapted from the End TB Strategy to target pre elimination and ultimately elimination in low incidence countries
OVERVIEW Recognizing the importance of expanding the response to LTBI in 2014 WHO developed Guidelines on the Management of Latent Tuberculosis Infection The guidelines are primarily targeted at high income or upper middle income countries with an estimated TB incidence rate of less than 100 per 100 000 population because they are most likely to benefit from it due to their current TB epidemiology and resource availability The overall objective of the guidelines is to provide public health approach guidance on evidence based practices for testing treating and managing LTBI in individuals with the highest risk of progression to active disease Specific objectives include identifying and prioritizing at risk population groups for targeted intervention of LTBI testing and treatment including defining an algorithm and recommending specific treatment options The guidelines are expected to provide the basis and rationale for the development of national guidelines for LTBI management based on available resources epidemiology of TB including intensity of transmission the health care delivery system of the country and other national and local determinants **Guide For Cuet (Ug) Common University Entrance Test (Under-Graduate) Computer Based Test (English)** Team Prabhat,2022-04-05 NTA National Testing Agency Guide for CUET UG Common University Entrance Test Under Graduate Computer Based Test English The Present Edition of Guide for CUET UG has been carefully prepared to serve as a Study Guide Solved Papers Practice Sets for those aspirants who are preparing for Common University Entrance Test under graduate conducted by NTA National Testing Agency This book
