SKEPTIC 7 Autocrine and Paracrine Mechanisms in Reproductive Endocrinology L. Krey,2013-11-11 There is a
 prov1s10n in the charter of each Study Section of the Division of Research Grants at the National Institutes of Health that
 stipulates that workshops are to be held periodically to aid Study Section members in their appraisals of recent developments
 in their fields and to identify future challenges worthy of investigation The Reproductive Endocrinology Study Section was
 established on December 13 1985 to review research grants and research training activities relating to reproductive
 endocrinology including aspects of management of reproductive endocrine disorders and hormonal imbalances as related to
 infertility and during pregnancy and puberty breast cancer and prostate cancer It held its first workshop entitled Autocrine
 and Paracrine Mechanisms in Reproductive Endocrinology in October 1988 in Shrewsbury MA at The Worcester Foundation
 for Experimental Biology The proceedings of this workshop which are detailed herein reflect the fact that autocrine and
 paracrine interactions are rapidly being accepted as an exciting area of research by scientists investigating the physiological
 and biochemical mechanisms of hormone action in the male and female reproductive systems The material covered is novel
 and wide ranging extending from theoretical considerations of mechanisms of growth factor action and the role of cell cycle
 stage in determining hormone action to investigations of autocrine and paracrine interactions during development to
 discussions of the potential clinical ramifications of the basic research findings Such an extensive inventory is necessary for
 two reasons Evolutionary Perspectives on Social Psychology Virgil Zeigler-Hill,Lisa L. M. Welling,Todd K.
 Shackelford,2015-05-06 This wide ranging collection demonstrates the continuing impact of evolutionary thinking on social
 psychology research This perspective is explored in the larger context of social psychology which is divisible into several
 major areas including social cognition the self attitudes and attitude change interpersonal processes mating and
 relationships violence and aggression health and psychological adjustment and individual differences Within these domains
 chapters offer evolutionary insights into salient topics such as social identity prosocial behavior conformity feminism
 cyberpsychology and war Together these authors make a rigorous argument for the further integration of the two diverse
 and sometimes conflicting disciplines Among the topics covered How social psychology can be more cognitive without being
 less social How the self esteem system functions to resolve important interpersonal dilemmas Shared interests of social
 psychology and cultural evolution The evolution of stereotypes An adaptive socio ecological perspective on social competition
 and bullying Evolutionary game theory and personality Evolutionary Perspectives on Social Psychology has much to offer
 students and faculty in both fields as well as evolutionary scientists outside of psychology This volume can be used as a
