Policy Number:	402	Volume:	Command
Approved By:	Tom Jenkins	Last Updated:	August 2012
CFAI Reference:	5A.5, 9B.5	CAAS Reference:	N/A
Revision Summary:	Created – March 2009 Formatted – May 2012 Revised – May 2012 Edited – August 2012 (Locution Dispatch System)		

PURPOSE

A reliable and effective communications system is vitally important to the accomplishment of the department's mission. The objective of this procedure is to provide information, guidelines, and directives that will ensure rapid and efficient communications for the department.

POLICY

The manner in which radio operations are handled is often a measure of the efficiency of an organization and the attitude of its individuals. Observing simple basic rules will expedite message handling and improve working relationships among all concerned.

Application of general guidelines outlined here will lead to professional performance.

1. Listen before transmitting to make certain the channels are clear and organize your thoughts before transmitting.
2. Keep all transmissions brief and to the point. Avoid longwinded descriptions and unnecessary repetition. Accuracy, brevity, and speed are all important; however, they should be considered in that order.
3. Speak distinctly and pronounce words carefully. Speak at a moderate speed using your conversational tone of voice with emphasis and rhythm. A message should be spoken by phrases, not one word at a time.
4. When using a portable/mobile radio, hold the microphone about one inch from your lips, press the microphone button down firmly and then speak slowly and clearly across the mouthpiece in a normal voice.
