**Introduction to Objectivist Epistemology** Ayn Rand, 1990-04-26 Today man's mind is under attack by all the leading schools of philosophy. We are told that we cannot trust our senses, that logic is arbitrary, that concepts have no basis in reality. Ayn Rand opposes that torrent of nihilism and she provides the alternative in this eloquent presentation of the essential nature and power of man's conceptual faculty. She offers a startlingly original solution to the problem that brought about the collapse of modern philosophy: the problem of universals. This brilliantly argued, superbly written work, together with an essay by philosophy professor Leonard Peikoff, is vital reading for all those who seek to discover that human beings can and should live by the guidance of reason.

*Ayn Rand*, **Foundations of a Free Society** Gregory Salmieri, Robert Mayhew, 2019-03-15 *Foundations of a Free Society* brings together some of the most knowledgeable Ayn Rand scholars and proponents of her philosophy as well as notable critics, putting them in conversation with other intellectuals who also see themselves as defenders of capitalism and individual liberty. United by the view that there is something importantly right though perhaps also much wrong in Rand's political philosophy, contributors reflect on her views with the hope of furthering our understandings of what sort of society is best and why. The volume provides a robust elaboration and defense of the foundation of Rand's political philosophy in the principle that force paralyzes and negates the functioning of reason; it offers an in-depth scholarly discussion of Rand's view on the nature of individual rights and the role of government in defending them; it deals extensively with the similarities and differences between Rand's thought and the libertarian tradition to which she is often assimilated; and objections to her positions arising from this tradition. It explores Rand's relation to the classical liberal tradition, specifically with regard to her

**The Realist Turn** Douglas B. Rasmussen, Douglas J. Den Uyl, 2020-08-05 Douglas B Rasmussen and Douglas J Den Uyl maintain that a realist turn namely one in which the natural order is the basis for individual rights is needed to bring about a proper understanding and defense of liberty They argue that the critical character of individual rights results from their being tethered to metaphysical realism After reprising their explanation and defense of natural rights Rasmussen and Den Uyl explain metaphysical realism and defend it against neo pragmatist objections They show it to be a formidable and preferable alternative to epistemic constructivism and crucial for a suitable understanding of ideal theory

Lennox, 2014-08-01 Philosopher novelist Ayn Rand 1905 1982 is a cultural phenomenon Her books have sold more than twenty eight million copies and countless individuals speak of her writings as having significantly influenced their lives Despite her popularity Rand s philosophy of Objectivism has received little serious attention from academic philosophers Concepts and Their Role in Knowledge offers scholarly analysis of key elements of Ayn Rand s radically new approach to epistemology The four essays by contributors intimately familiar with this area of her work discuss Rand s theory of concepts including its new account of abstraction and essence and its central role in her epistemology how that view leads to a distinctive conception of the justification of knowledge her realist account of perceptual awareness and its role in the acquisition of knowledge and finally the implications of that theory for understanding the growth of scientific knowledge The volume concludes with critical commentary on the essays by

distinguished philosophers with differing philosophical viewpoints and the author's responses to those commentaries. This is the second book published in Ayn Rand Society Philosophical Studies which was developed in conjunction with the Ayn Rand Society to offer a fuller scholarly understanding of this highly original and influential thinker.
