Thompson,Dale E. Chimenti,2012-12-06 The objective of this study was to increase the understanding of damage in composite materials with through the thickness reinforcements As a first step it was necessary to develop new ultrasonic imaging technology to better assess internal damage of the composite A useful ultrasonic imaging technique has been successfully developed to assess the internal damage of composite panels The ultrasonic technique accurately determines the size of the internal damage It was found that the ultrasonic imaging technique was better able to assess the damage in a composite panel with through the thickness reinforcements than by destructively sectioning the specimen and visual

inspection under a microscope Microscopic determination of crack location and lengths in a composite panel with through the thickness reinforcements was almost impossible Five composite compression after impact panels were tested The compression after impact strength of the panels with the through the thickness reinforcements was almost twice that of the comparable panel without through the thickness reinforcement REFERENCES 1 B T Smith J S Heyman A M Buoncristiani Earl D Blodgett J G Miller and S M Freeman Correlation of the Deply TechniQue with the Ultrasonic Imaging of Impact Damage in Graphite Epoxy Composites Materials Evaluation vol 47 NO 12 December 1989 pp 1408 1416 2 NASA Tech Briefs June 1987 p 28 3 P M Gammel Improved Ultrasonic Detection using Analytic Signal Magnitude Ultrasonics Vol 19 March 1981 pp 73 76 4 R C Heyser Determination of Loudspeaker Signal Arrival Times Part Journal of the Audio Engineering Society Vol 19 Dec 1971 pp 902 905 **Academic Achievement Assessment** Huisheng Tian,Zhichang Sun,2018-06-07 This book consists of introduction to academic achievement assessment international comparison of academic achievement assessment and reference as well as theoretical system and practice strategy of academic achievement assessment The study indicates that the development trends of foreign academic achievement assessment are establishing a complete education quality monitoring system paying more attention to the function and value of independent education quality monitoring institution and intermediary organization the orientation based on the integrated development of students growing more apparent marching from evaluation of study to evaluation for study and placing educational equity in a prominent position This book is easy to understand and readable for professionals like teachers educational researchers and particularly those engaged in academic achievement
