could afford it and I certainly wanted to live To my surprise I found out that those Doctors are humans and they don't have all the answers They did the best they could for me but my condition did not improve So I sought God and He healed me fully and completely I discovered that there is something that is impossible with men but with God all things are possible Luke 18:27 This book is not intended to bash the medical Doctors To the contrary I actually admire them But for Doctors many people would have died before their time So I am not anti Doctors Instead this book is intended to share with you a practical way to get healed When the Doctors have done all they could do for you it is good to know that there is a God who can heal your body and He has never lost a patient More so God's method is very effective He works through Doctors but He can heal without them With God there are no prescription drugs no recovery room and no need for a follow up appointment In short this book is not a fiction of someone's imagination It is a practical guide to God's divine healing If you need healing and you really want to know how God can heal you I seriously encourage you to read this book Believe me your life will never be the same again
