Cinema, Colonialism, Postcolonialism Dina Sherzer, 2010-07-05 In this first major study of French colonial and postcolonial cinema Dina Sherzer compiles essays by some of the foremost scholars on the subject who interrogate and analyze the realities behind the images of the nation's past and present. Through an examination of France and its colonies, multiethnic contemporary France and cinematic discourses which have been and are being produced about France's colonial past, these authors explore how the images relay underlying assumptions and their relation to historical and political facts. A variety of subjects and viewpoints inform these studies which cover the entire range of films on that topic. The authors expound upon the role French and Francophone films are currently playing in reconstructing and imagining France's colonial past. Not only do the essays examine how French cinema has represented the encounter of French citizens with individuals from former colonies during the colonial era, they examine how French cinema has portrayed and has come to terms with the immigration of former colonial subjects to France. In addition, the book features another postcolonial facet by analyzing films of directors from the former colonies who give their own representation of colonialism and presentation of their culture. This study is a major contribution to postcolonial research. Race, gender, and geography are central themes throughout this book that presents innovative material that contributes to the history of French cinema and emphasizes how cinema participates in and is a part of national culture.

Poétique de l'enfance chez Marguerite Duras Anne Cousseau, 1999

Interminablement l'enfance disait Duras reprenant cette phrase Stendhal. L'enfance n'a jamais cessé d'être présente dans l'univers durassien. Les figures d'enfance coïncident et parfois croisent l'enfance indochinoise. L'enfance est un centre signifiant de l'œuvre entière autour duquel se construisent des réseaux d'images et des figures qui structurent en profondeur l'imaginaire durassien.

Colonizer and Colonized, 2021-11-08 Over the last two decades the experiences of colonization and decolonization once safely relegated to the margins of what occupied students of history and literature have shifted into the latter's center of attention in the West as elsewhere. This attention does not restrict itself to the historical dimension of colonization and decolonization but also focuses upon their impact upon the present for both colonizers and colonized. The nearly fifty essays here gathered examine how literature now and in the past keeps and has kept alive the experiences both individual and collective of colonization and decolonization. The contributors to this volume hail from the four corners of the earth. East and West, North and South. The authors discussed range from international luminaries past and present such as

Aphra Behn Racine Blaise Cendrars Salman Rushdie Graham Greene Derek Walcott Guimarães Rosa J M Coetzee Andr Brink and Assia Djebar to less known but certainly not lesser authors like Gioconda Belli Ren Depestre Amadou Kon Elisa Chimenti Sapho Arthur Nortje Esia Mphahlele Mark Behr Viktor Paskov Evelyn Wilwert and Leïla Houari Issues addressed include the role of travel writing in forging images of foreign lands for domestic consumption the reception and translation of Western classics in the East the impact of contemporary Chinese cinema upon both native and Western audiences and the use of Western generic novel conventions in modern Egyptian literature **Littérature et cinéma** Jean-Bernard Vray, 1999

know French literature even if we don t know French because it is probably the second largest and certainly the most

French literature from the earliest times to the present It is also a particularly rich literature espousing ever genre from
poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of
all classes and political stands with recently strong feminist and gay strains Obviously the core dictionary section includes
among its panoply of often substantial and detailed entries hundreds of authors dozens of significant works the various styles
