Longhouse Fragmented A:

A Longhouse Fragmented Brian Joseph Gilley, 2014-01-01 Tells the social history of the Iroquois people of Ohio during the buildup to removal A Longhouse Fragmented is a historic ethnography of the Ohio Iroquois and in particular of the people known as the Seneca of Sandusky during the early nineteenth century Using contemporary social theory and interdisciplinary methodologies Brian Joseph Gilley tells the social history of the Native peoples of Ohio before and during the sociopolitical buildup to removal As culturally geographically and socially displaced Iroquois the Sandusky Iroquois were fragmented away from American historiographical constructions of Iroquois social history by the American Indian academic establishment This fragmentation makes the early cultural history of the Ohio Iroquois an ideal foil through which to consider how normalized interpretations of social history come to appear real and have real effects for the subject societies well into the twentieth century These stories are intended to begin an overdue conversation about the effects of a unified Iroquois history congealed around highly specific categories of knowledge This book is groundbreaking in both its content and its theoretical orientation Reframing the story of the Sandusky Senecas removal from a tragic endpoint to an incident in a much longer history of indigenous translocation marks a truly original intervention in the scholarship on Iroquois history and also sheds new light on a little known chapter in the history of Indian removal Jon Parmenter author of *The Edge of the Woods* Iroquoia 1534 1701 *Architecture, Society, and Ritual in Viking Age Scandinavia* Marianne Hem Eriksen, 2019-02-28 In this book Marianne Hem Eriksen explores the social organization of Viking Age Scandinavia through a study of domestic architecture and in particular the doorway A highly charged architectural element the door is not merely a practical constructional solution Doors control access generate movement and demark boundaries yet also serve as potent ritual objects For this study Eriksen analyzes and interprets the archaeological data of house remains from Viking Age Norway which are here synthesized for the first time Using social approaches to architecture she demonstrates how the domestic space of the Viking household which could include masters and slaves wives and mistresses children and cattle was not neutral Quotidian and ritual interactions with through and orchestrated by doorways prove to be central to the production of a social world in the Viking Age Eriksen s book challenges the male dominated focus of research on the Vikings and expands research questions beyond topics of seaborne warriors trade and craft **Long House, Mesa Verde National Park, Colorado** George S. Cattanaach, Richard Page Wheeler, 1980 Theoretical Approaches to Analysis and Interpretation of Commingled Human Remains Anna J. Osterholtz, 2015-11-05 This volume centers on the application of social theory to commingled remains with special focus on the cultural processes that create the assemblages as a way to better understand issues of meaning social structure and interaction and lived experience in the past The importance of the application of theoretical frameworks to bioarchaeology in general has been recognized but commingled and fragmentary assemblages require an increased theoretical focus Too often these assemblages are still relegated to appendices they are analytical

puzzles that need the interpretive power offered by social theory Theoretical Approaches to Analysis and Interpretation of Commingled Human Remains provides case studies that illustrate how an appropriate theoretical model can be used with commingled and fragmentary remains to add to overall site and population level interpretations of past and present peoples Specifically the contributions show a blending and melding of different social theories highlighting the broad interpretive power of social theory Contributors are drawn from both the Old and New World Temporally time periods from the Neolithic to historic periods are present further widening the audience for the volume *Daily life at the turn of the neolithic*

Simonsen John, 2017-08-02 This book provides unique insights into Late Neolithic life its organization and its economy made possible by an altogether exceptional collection of recent archaeological findings in South Scandinavia from longhouses with sunken floors dating from this period Through analysis and interpretation of these comprehensive materials Danish archaeologist John Simonsen presents brand new findings essential for many wider interpretations of this crucial and fascinating transitional period from the Stone Age to the Bronze Age c 2350 c 1600 BC The basic materials presented and discussed in Daily Life at the Turn of the Neolithic were mainly found during new archaeological excavations in the central part of the Limfjord region of Denmark but in terms of the wider perspectives and considerations often relate to the entire region and in several respects also to South Scandinavia and beyond *Tracing Textile Production from the Viking Age to the Middle Ages*

Ingvild Øye, 2022-05-05 This book concerns textile production at the fringes of north western Europe areas in western Norway and the North Atlantic in the expanding dynamic and transformative period from the early Viking Age into the Middle Ages Textiles constitute one of the basic needs in human life to protect and keep the body warm but also to show social status and affiliations Textiles had a wide spectrum of use areas and qualities fine and coarse in various contexts and in the Viking Age not least related to the production of sails all essential for the development and character of the period So what were the tools and textiles like who made them who used them and who exposed them By tracing textile production from the remains of tools and textiles in varied landscapes and settings Viking Age graves and in situ workplaces from the whole period and combining this with textual information many layers of information are exposed about technology and qualities as well as gender gender roles social relations power and networks By combining tools textiles and texts in various settings this book aims to contextualize dispersed archaeological finds of tools and textiles to uncover patterns across larger areas and in a long term perspective of half a millennium **The Vikings in History**

been purposely demolished and rebuilt several times at the exact same spot The unusually large entrances to the two adjoined buildings lead straight from one to the other thus witnessing a duality of buildings that came to define the aristocratic localities throughout Scandinavia in the following 800 years Hence Gudme represents a starting point for a significant type of architectural ideal as well as a first generation of central places

Urban Futures Mark Burry, 2020-07-09 Given the rapid evolution of concepts such as smart cities who are the architects riding the wave of new possibilities for urban design How do contemporary agencies find pathways to understand the challenges and opportunities presented by evolving urban technology and how does architecture engage with the expanding pool of associated disciplines How should schools of architecture and urban design engage with radical digitalised urbanism This issue of AD claims that this is contested territory The two dimensionality of planners urban construct is as limited as engineers predilection to zero in and solve problems Urban Futures contends that society needs a much broader professional brush than has been applied in the past interdisciplinary urban design professionals who can reach across the philosophy and mundanity of urban existence with a creative eye The issue identifies a selection of internally resourceful visionaries who combine sociology geography logistics and systems theory with the practical realities and challenges of mobility sustainable materials food water and energy supply and waste disposal Crucially they seek to ensure better urban futures and a civil and convivial urban experience for all city dwellers Contributors Refik Anadol Philip Belesky Shajay Bhooshan Jane Burry and Marcus White Thomas Daniell Vicente Guallart Shan He Wanyu He Dan Hill Justyna Karakiewicz Tom Kvan Areti Markopoulou Ed Parham Carlo Ratti Ferran Sagarra and Bige Tun er Featured architects Arup Digital Studio Guallart Architects Space10 Space Syntax UNStudio and XKool Technology

Queering the Countryside Mary L. Gray, Colin R. Johnson, Brian J. Gilley, 2016-03-15 Choice Outstanding Academic Title of 2016 Rural queer experience is often hidden or ignored and presumed to be alienating lacking and incomplete without connections to a gay culture that exists in an urban elsewhere Queering the Countryside offers the first comprehensive look at queer desires found in rural America from a genuinely multi disciplinary perspective This collection of original essays confronts the assumption that queer desires depend

upon urban life for meaning By considering rural queer life the contributors challenge readers to explore queer experiences in ways that give greater context and texture to modern practices of identity formation The book s focus on understudied rural spaces throws into relief the overemphasis of urban locations and structures in the current political and theoretical work on queer sexualities and genders Queering the Countryside highlights the need to rethink notions of the closet and coming out and the characterizations of non urban sexualities and genders as isolated and in need of outreach Contributors focus on a range of topics some obvious some delightfully unexpected from the legacy of Matthew Shepard to how heterosexuality is reproduced at the 4 H Club to a look at sexual encounters at a truck stop to a queer reading of The Wizard of Oz A journey into an unexplored slice of life in rural America Queering the Countryside offers a unique perspective on queer experience in the modern United States and Canada

Gender and Sexuality in Indigenous North America, 1400-1850 Sandra Slater, Fay A. Yarbrough, 2022-11-10 Groundbreaking historical scholarship on the complex attitudes toward gender and sexual roles in Native American culture with a new preface and supplemental bibliography Prior to the arrival of Europeans in the New World Native Americans across the continent had developed richly complex attitudes and forms of expression concerning gender and sexual roles The role of the berdache a man living as a woman or a woman living as a man in native societies has received recent scholarly attention but represents just one of many such occurrences of alternative gender identification in these cultures Editors Sandra Slater and Fay A Yarbrough have brought together scholars who explore the historical implications of these variations in the meanings of gender sexuality and marriage among indigenous communities in North America Essays that span from the colonial period through the nineteenth century illustrate how these aspects of Native American life were altered through interactions with Europeans Organized chronologically *Gender and Sexuality in Indigenous North America 1400 1850* probes gender identification labor roles and political authority within Native American societies The essays are linked by overarching examinations of how Europeans manipulated native ideas about gender for their own ends and how indigenous people responded to European attempts to impose gendered cultural practices at odds with established traditions Many of the essays also address how indigenous people made meaning of gender and how these meanings developed over time within their own communities Several contributors also consider sexual practice as a mode of cultural articulation as well as a vehicle for the expression of gender roles Representing groundbreaking scholarship in the field of Native American studies these insightful discussions of gender sexuality and identity advance our understanding of cultural traditions and clashes that continue to resonate in native communities today as well as in the larger societies those communities exist within

Surviving Genocide Jeffrey Ostler, 2019-05-28 The first part of a sweeping two volume history of the devastation brought to bear on Indian nations by U S expansion In this book the first part of a sweeping two volume history Jeffrey Ostler investigates how American democracy relied on Indian dispossession and the federally sanctioned use of force to remove or slaughter Indians in the way of U S expansion He charts

the losses that Indians suffered from relentless violence and upheaval and the attendant effects of disease deprivation and exposure This volume centers on the eastern United States from the 1750s to the start of the Civil War An authoritative contribution to the history of the United States violent path toward building a continental empire this ambitious and well researched book deepens our understanding of the seizure of Indigenous lands including the use of treaties to create the appearance of Native consent to dispossession Ostler also documents the resilience of Native people showing how they survived genocide by creating alliances defending their towns and rebuilding their communities Publications in Archeology ,1980 *Archeological Research Series* ,1980 *Caravans of Gold, Fragments in Time* Kathleen Bickford Berzock,2019-02-26 Issued in conjunction with the exhibition Caravans of Gold Fragments in Time held January 26 2019 July 21 2019 Mary and Leigh Block Museum of Art Northwestern University Evanston Illinois *Ancient Households of the Americas* John G.
