consequence for the concept of world citizenship That all kinds of prejudices need to be abandoned that new institutions need to be erected that the recognition of ethnic climatic historical idiomatic and traditional diversity thoughts and customs can help to promote a broader loyalty a greater aspiration that contemplates the uniqueness of humanity that the maintenance of order can be sustained by a single code of international law by an Executive and a Parliament and a World Supreme Court that the Cause of Peace can be achieved through a binding treaty with inviolable and clearly defined clauses fruit of a broad global consensus Inspired by these principles and a clear vision Pedro Arenas rose to promote these teachings traveling and supporting local Bah activities and institutions in Colombia where he learned about the exciting experience and fieldwork of the Rural University FUNDAEC and the Ruh Institute Served as a Bah pioneer in El Salvador Central America during a period of great uncertainty and conflict between the army and the FFLN collaborated in activities to promote the Institute of Bah training in indigenous areas on the borders of Brazil Colombia and Peru as well as dedicated a brief period of his life in the archipelago of Cape Verde on the African coast and later now back to Brazil in the region of Northeast where he established himself as a Bah pioneer working as a professor linked to the Rio Grande do Norte State University Finally Pedro Arturo dedicates the last chapters and some accompanying texts to remembering relatives and friends both from the oldest and most recent times dedicating to them lines of recognition affection and high esteem all as a reflection and demonstration of his love and ample thanks to the Beloved of his heart Bah u ll h for guiding him and enabling him to reach a height of achievement and joy The whole story is told with the enthusiasm of one who was an active protagonist and is testimony to the personal transformations experienced by the author under the influence of Bah u ll h s Revelation This young Colombian seeker like many others of his age and generation was galvanized by the overwhelming strength and foresight of the Bah teachings and still continues untiring in his efforts in the challenging task of contributing each in a humble way and according to his abilities in the construction of that new order advocated by Bah u ll h

Christianity in a Time of Climate Change Kristen Poole,2020-04-17 What does climate change have to do with religion and spirituality Even though a changing environment will have a dire impact on human populations affecting everything from food supply to health to housing the vast majority of Americans do not consider climate change a moral or a religious issue Yet the damage of climate change a phenomenon to which we all contribute through our collective carbon emissions presents an unprecedented ethical problem one that touches a foundational moral principle of Christianity Jesus s dictate to love the neighbor This care for the neighbor stretches across time as well as space We are called to care for the neighbors of the future as well as those of the present How can we connect the ethical considerations of climate change the knowledge that our actions directly or indirectly cause harm to others to our individual and collective spiritual practice Christianity in a Time of Climate Change offers a series of reflective essays that consider the Christian ethics of climate change and suggest ways to fold the neighbors of the future into our spiritual lives as an impetus to meaningful personal
