International Aspects of Fiscal Policies Jacob A. Frenkel, 2007-12-01 This volume brings together nine papers from a conference on international macroeconomics sponsored by the NBER in 1985 International economists as well as graduate students in the fields of global monetary economics finance and macroeconomics will find this an outstanding contribution to current research It includes two commentaries for each paper written by experts in the field and Frenkel s detailed introduction which serves as a reader s guide to the arguments made the models employed and the issues raised by each contributor The studies analyze national fiscal policies within the context of the international economic order Malcolm D Knight and Paul R Masson use an empirical model to show that fiscal changes in recent years in the United States West Germany and Japan have caused major disturbances in net savings and investment flows Linda S Kole uses a two country simulation model to examine the effects of a large nation s expansion on exchange rates interest rates and the balance of payments In other studies Warwick J McKibbin and Jeffrey D Sachs discuss the influences of different currency regimes on the international transmission of inflation Kent P Kimbrough analyzes the interaction between optimal tax policies and international trade Sweder van Wijnbergen investigates the interrelation of fiscal policies trade intervention and world

interest rates and Willem H Buiter uses an analytical model to look at fiscal interdependence and optimal policy design David Backus Michael Devereux and Douglas Purvis develop a theoretical model to investigate effects of different fiscal policies in an open economy Alan C Stockman looks at the influence of policy anticipation in the private sector while Lawrence H Summers shows the effects of differential tax policy on international competitiveness Perspectives on Development: the Euro-Mediterranean Partnership George Joffe, 2023-05-09 The Euro Mediterranean Partnership Initiative launched by the Barcelona Conference in 1995 is the most ambitious project to date directed at comprehensive prosperity and security in the Mediterranean region Yet the assumptions on which it is based are untried and untested This study seeks to analyse what they are and to draw some conclusions as to the potential of the Initiative for success by comparing it with other experiences of regional development Handbook of Public Finance Fred Thompson, Mark T. Green, 1998-02-04 Presenting emphases on and approaches to issues such as government spending reporting pricing and fiscal federalism the Handbook of Public Finance demonstrates the utility of integrating public finance theory with actual public policy practices It discusses applications in major subfields of public finance including public education environmental regulation energy policy social welfare programs and local and state politics Other topics of discussion include the theory and practice of tax incidence analysis the marginal costs of taxation and regulation the economics of expenditure incidence discounting and the social discount rate passive use benefits and public sector pricing *Financial Conditions and Macroeconomic Performance* Steven M. Fazzari, Dimitri B. Papadimitriou, 2015-06-05 This collection of papers on financial instability and its impact on macroeconomic performance honours Hyman P Minsky and his lifelong work It is based on a conference at Washington University St Louis in 1990 and includes among the authors Benjamin M Friedman Charles P Kindleberger Jan Kregel and Steven Fazzari These papers consider Minsky's definitive analysis that yields such a clear and disturbing sequence of financial events booms government intervention to prevent debt contraction and new booms that cause a progressive buildup of new debt eventually leaving the economy much more fragile financially *Derivatives Pricing and Modeling* Jonathan Batten, Niklas F. Wagner, 2012-07-02 Highlights research in derivatives modelling and markets in a post crisis world across a number of dimensions or themes This book addresses the following main areas derivatives models and pricing model application and performance backtesting and new products and market features
