International Brand Management of Chinese Companies Sandra Bell, 2008-03-29 China is certainly doing its best to keep the world mesmerized by its economic achievements The Chinese economic growth story that begun 30 years ago has in terms of dynamics and duration long since surpassed all those economic miracles which have brought Germany Japan and the South East Asian Tigers into the top league of the industrialized world The rapid expansion of the Chinese economy has gone along with a full fledged re integration of China into the global economic system In the course of the last 30 years China has become a major player in the global economy and today is on a trajectory towards even greater prominence In recent years the Chinese economy seems to have reached an important threshold line of economic development and global integration In the first quarter century of reform and global opening Chinese enterprises have been largely confined to a passive role in the global division of labor Foreign enterprises as the proprietors of greatly superior business models production technologies management models as well as very competitively established brands have been integrating Chinese players in their value chains and global operations Lacking the necessary production technologies products as well as marketing knowledge to successfully address OECD consumers Chinese enterprises have been hardly able to enter the global markets without such guidance Now this constellation is changing

The New Guide to Identity Wolff Olins, 2017-03-02 It is of course commonplace for corporations to operate sophisticated identity programmes But identity has now moved way beyond the commercial area We live in a world in which cities charities universities clubs in fact any activity that involves more than two or three people all seem to have identities too However very few of these organizations have released the full potential that effective management of identity can achieve In this book the world's leading authority on corporate identity shows how managing identity can create and sustain behavioural change in an organization as well as achieving the more traditional outcome of influencing its external audiences The New Guide to Identity provides a simple clear guide to identity including what it is and how it can be used to full effect If a change of identity is required the whole process is described from start up including investigation and analysis of the current identity through developing the new identity structure to implementation and launch For anyone responsible for the identity of an organization or for designing it for someone else or attempting to achieve change in their organization or studying the subject this straightforward guide is essential reading
