the figure of the mother led Lacan to break with Freud's formulation of the Oedipus complex and underlies Lacan's distinctive conception of unconscious dynamics. Leaning on this account Boothby shows how our sense of the sacred arises from our relation to what we do not know. Embracing the Void lays out the range of Freud's attempts at a psychoanalytic theory of religion and then sketches the rough contours of Lacan's contrasting approach. From there Boothby offers the theoretical tools for interpreting the religious impulse and analyzes key religious traditions from ancient Greek polytheism to Judaism and Christianity and from Hinduism and Buddhism to Islam finally turning to modern capitalist culture and the seductive deity that dominates it. Money Lucid accessible and compelling the book provides a cogent intervention in one of the psychoanalytic tradition's most contentious topics and offers a new approach to our understanding of religion.

Jacques Lacan Slavoj Žižek, 2003 Jacques Lacan 1901-1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century. The texts selected here present the entire scope of the Lacan debate. [Enjoying What We Don't Have](#) Todd McGowan, 2020-03-01 Although there have been many attempts to apply the ideas of psychoanalysis to political thought this book is the first to identify the political project inherent in the fundamental tenets of psychoanalysis. And this political project Todd McGowan contends provides an avenue for emancipatory politics after the failure of Marxism in the twentieth century. Where others seeking the political import of psychoanalysis have looked to Freud's early work on sexuality McGowan focuses on Freud's discovery of the death drive and Jacques Lacan's elaboration of this concept. He argues that the self destruction occurring as a result of the death drive is the foundational act of emancipation around which we should construct our political philosophy. Psychoanalysis offers the possibility for thinking about emancipation not as an act of overcoming loss but as the embrace of loss. It is only through the embrace of loss McGowan suggests that we find the path to enjoyment and enjoyment is the determinative factor in all political struggles and only in a political project that embraces the centrality of loss will we find a viable alternative to global capitalism. biographiques in dits cet ouvrage offre une analyse approfondie de l'œuvre consacrée par Louis Massignon 1883-1962 la mystique musulmane. Il souligne l'importance de certaines découvertes de l'islamologue pour les études islamiques concernant la période formative du soufisme. Plus encore ce livre sonde le regard porté par Massignon sur les vocations mystiques en Islam et examine la lumière des travaux récents sur sa vision de la sainteté et de la figure d'Al-'Allāj mort en 309-922. Par suite ce travail fait merger la question de la posture du chercheur en sciences des religions ainsi que celle des précautions à adopter afin que sa subjectivité ne reconstruise pas le réel mais l'éclaire et le révèle. This book provides an extensive analysis of the work of Louis Massignon 1883-1962 on Muslim mysticism based on previously unpublished historical and biographical elements. It highlights the importance for Islamic Studies of certain discoveries made by the Islamicist concerning the formative period of Sufism. More than that this book probes Massignon's view of mystical vocations in Islam and examines in the light of recent work his vision of holiness and the figure of Al-'Allāj 309-922. This work opens more broadly the question of the posture of the researcher in the study of religion and the precautions to be adopted so that their subjectivity does not reconstruct reality but illuminates and reveals it.

Industries culturelles travail et création Les œuvres d'art sont austères et sans pudeur l'industrie culturelle est pornographique et prude disent en 1944 Horkheimer et Adorno dans La Dialectique de la raison. Dans le milieu du XXe siècle la production culturelle a pris la forme de l'industrie de la division du travail du marketing et du commerce et ce nom n'est pas étranger au contenu des œuvres produisant une sensibilité standardisée voire de nouvelles formes d'aliénation. Aujourd'hui on nomme industries culturelles un secteur économique incluant les institutions publiques aussi bien que des organismes privés qui produisent et diffusent. Et si l'on sait que la production artistique ou intellectuelle fréquente depuis longtemps les processus de production capitaliste de type industriel ou y a été incluse il convient de nous tourner vers des penseurs qui ont analysé cette société ou examiné ces théories en regard de la situation contemporaine.

Les industries culturelles se sont emparées de la pensée freudienne de son lexique et de ses images. Aujourd'hui la psychanalyse s'affiche dans les médias et tous s'emparent de ce nom. Dans ces journaux de toute la dimension politique sociale et historique de la psychanalyse seront abordées par le biais de leurs relations avec la critique cinématographique audiovisuelle et littéraire que nous déplierons pour mieux dépasser les enjeux qui traversent ces domaines.
