Patrick Crowley, Shirley Jordan

Jacques Le Sophiste Lacan Logos Et Psychanalyse:

Jacques the Sophist Barbara Cassin, 2019-10-22 Sophistry since Plato and Aristotle has been philosophy's negative alter ego, its bad other. Yet sophistry's emphasis on words and performativity over the fetishization of truth makes it an essential part of our world's cultural, political, and philosophical repertoire. In this dazzling book, Barbara Cassin, who has done more than anyone to reclaim a mode of thought that traditional philosophy disavows, shows how the sophistical tradition has survived in the work of psychoanalysis. In a highly original rereading of the writings and seminars of Jacques Lacan together with works of Freud and others, Cassin shows how psychoanalysis like the sophists challenges the very foundations of scientific rationality. In taking seriously equivocations, jokes, and unfinishable projects of interpretation, the analyst like the sophist allows performance, signifier, and inconsistency to reshape truth. This witty, brilliant tour de force celebrates how psychoanalysts have become our culture's key dissidents and register in Lacan's words the presence of the sophist in our time.

The Rhetoricity of Philosophy Blake D. Scott, 2024-08-02 This book aims to recast the way that philosophers understand rhetoric. Rather than follow most philosophers in conceiving rhetoric as a specific way of speaking or writing, it shows that rhetoric is better understood as a dimension of all human discourse and action, what the author calls rhetoricity. This book provides the first philosophical treatment of rhetoricity. It is motivated by two ongoing developments. The first is the debate between Alain Badiou and Barbara Cassin about philosophy's relation to rhetoric. Both Badiou and Cassin are critical of rhetoric, albeit for different reasons. Second, there has been a growing resurgence of interest in rhetoric, considering the recent rise in authoritarian politics as well as new forms of propaganda driven by persuasive technologies. This book identifies the common target of Badiou's and Cassin's otherwise incompatible critiques: rhetoric's conception of audience. It offers a fresh take on the new rhetoric project of Chaim Perelman and Lucie Olbrechts-Tyteca, putting their work into conversation with the Badiou-Cassin debate. The book then turns to the hermeneutic philosophy of Paul Ricoeur in search of an expanded conception of audience. It shows that Ricoeur's hermeneutic philosophy allows us to extend Perelman and

Olbrechts Tyteca's psychological notion of audience to texts themselves and to argue that human beings have a rhetorical capacity to reflect on audiences in search of what is potentially persuasive. The Rhetoricity of Philosophy will be of interest to scholars and advanced students working in contemporary European philosophy, rhetoric, argumentation studies, and social theory. *Derrida and the Legacy of Psychoanalysis* Paul Earlie, 2021. Situating Derrida's engagement with Freud vis-à-vis key contemporaries such as Lévi Strauss and Foucault, this title uses close analysis of a range of primary texts to show how Derrida reshaped Freud's insights in the very different intellectual context of post-war France. *Psychoanalysis is an Antiphilosophy* Justin Clemens, 2013-05-31. Justin Clemens examines psychoanalysis under the rubric of antiphilosophy, a practice that offers the strongest possible challenges to thought. Drawing on the work of Badiou, Freud, Lacan, Žižek, and Agamben, he examines the relationships of humans to desire. **Writing, Speech and Flesh in Lacanian Psychoanalysis** Shirley Zisser, 2021-09-13. This book explores the place of the flesh in the linguistically inflected categories of Freudian and Lacanian psychoanalysis, drawing explicit attention to the organic as an inherent part of the linguistic categories that appear in the writings of Freud and Lacan. Lacan's return to Freud famously involves a linguistic turn in psychoanalysis. The centering of language as a major operator in psychic life often leads to a dualistic or quasi-dualistic view in which language and the enjoyment of the body are polarized. Exploring the intricate connections of the linguistic and the organic in both Lacanian and Freudian psychoanalysis from its beginnings, Zisser shows that surprisingly and not only in Lacan's late teaching, psycho-linguistic categories turn out to be suffused with organicity. After unfolding the remnant of the flesh in the signifier as a major component of Lacan's critique of Saussure, using visual artworks as objective correlatives as it does so, the book delineates two forms of psychic writing. These are aligned not only with two fundamental states of the psychic apparatus as described by Freud: pain and satisfaction, but with two ways of sculpting formulated by Alberti in the Renaissance, but also referred to by Freud. Continuing in a Derridean vein, the book demonstrates the primacy of writing to speech in psychoanalysis, emphasizing how the relation between speech and writing is not binary but topological, as speech in its psychoanalytic conception is nothing but the folding inside out of unconscious writing. Innovatively placing the flesh at the core of its approach, the text also incorporates the seminal work of psychoanalyst Michel Montrelay to articulate the precise relation between the linguistic and the organic. *Writing, Speech and Flesh in Lacanian Psychoanalysis* will be indispensable to psychoanalysts, literary theorists, rhetoricians, deconstructionists, and those studying at the intersection of psychoanalysis, language, and the visual arts. **There's No Such Thing as a Sexual Relationship** Alain Badiou, Barbara Cassin, 2017-03-28. Published in 1973, *L'Étourdit* was one of the French philosopher Jacques Lacan's most important works. The book posed questions that traversed the entire body of Lacan's psychoanalytical explorations, including his famous idea that there is no such thing as a sexual relationship, which seeks to undermine our certainties about intimacy and reality. In *There's No Such Thing as a Sexual Relationship*, Alain Badiou and Barbara Cassin take possession of Lacan's short text.

thinking with Lacan about his propositions and what kinds of questions they raise in relation to knowledge Cassin considers the relationship of the real to language through a Sophist lens while the Platonist Badiou unpacks philosophical claims about truth Each of their contributions echoes back to one another offering new ways of thinking about Lacan his seminal ideas and his role in advancing philosophical thought

From Cogito to Covid Molly A. Wallace, Concetta V. Principe, 2022-06-29 This edited collection examines the contemporary relevance of Lacan s 1965 essay Science and Truth to debates on science psychoanalysis ethics and truth In doing so it re considers the established understanding of its argument that psychoanalysis is the only science for the human subject Over fifty years after Lacan attempted to formalize the relationship between science and psychoanalysis in Science and Truth this volume returns to the categorically systematic yet deeply puzzling ideas of this lecture turned essay The volume begins with a rigorous analysis of the formal logic animating the cogito which serves as a foundation for the remainder of the book to force a confrontation between the themes laid out in

Science and Truth and the cultural intellectual political economic and of course scientific movements that we face today The following five chapters examine various contemporary phenomena including the destabilizing forces of post truthism and political nihilism the non science of filmic depictions of science the prosopopeia of Lacan's so called secular Name of the Father the pseudoscientific discourse of involuntary celibates or incels and finally the alliance between science and capitalism that has developed out of the Covid 19 pandemic This project offers an important contribution to contemporary debates about science and ethics that will be of interest to academics working in psychoanalytic and critical theory and the philosophy and history of science as well as to clinicians

Google Me Barbara Cassin, 2017-10-03 Google is a champion of cultural democracy but without culture and without democracy In this witty and polemical critique the philosopher Barbara Cassin takes aim at Google and our culture of big data Enlisting her formidable knowledge of the rhetorical tradition Cassin demolishes the Google myth of a good tech company and its democracy of clicks laying bare the philosophical poverty and political naiveté that underwrites its founding slogans Organize the world's information and Don't be evil For Cassin this conjunction of globalizing knowledge and moral imperative is frighteningly similar to the way American demagogues justify their own universalizing mission before the world While sensitive to the possibilities of technology and to Google's playful appeal Cassin shows what is lost when a narrow worship of information becomes dogma such that research comes to mean data mining and other languages become provincial flavors folded into an impoverished Globish or global English
