danger that violence will be treated as spectacle and the implications of using violence as a polemical device to shift public sentiment others address the relationship between coercive power crime and violence that is not necessarily primarily physical and the political or ideological contexts in which narratives of good and evil are constructed and crime defined

**Politics Go to the Movies** Joel R. Campbell, 2022-03-14 Movies and television series are excellent tools for teaching political science and international relations Understanding how stories in various film and television genres illustrate political ideas can better assist students and fans understand and appreciate the political subtext of these media products This book examines politics through five film genres and their variants Gangster movies focus on American and other organized crime They reached their zenith in the films of Francis Ford Coppola and Martin Scorsese Political thrillers express paranoia about secrecy and political conspiracies while action movies channel anger at foreign and domestic threats to order Superhero films and TV present modern characters who seek to serve society as they face personal struggles about their individual identities War movies promote positive images of wars when conflicts are perceived as successful but often include antiwar messages when wars turn out badly Western movies fell out of favor in the 1970s and 1980s but have undergone a renaissance since the 1990s Westerns can be taken as either political parables or as meditations on policing anarchy community organization The author argues that while these genres all offer escape they also offer important political lessons

everyone and especially for the student of politics *Winning The Crowd The Politics of Popular Films* showcases careful close readings of recent popular films as serious texts of political thought Ten contributors select a film or small set of related films from the John Wick franchise to Pixar's *The Incredibles* and analyze the political orientations that these films convey The volume will be a helpful introduction for those interested in what Hollywood is teaching its viewers about power and the good life It will also be a valuable model for those wishing to sharpen their own ability to think critically about the meaning of their evening entertainment How have your values and beliefs been formed by Hollywood *Winning The Crowd* takes you on a guided journey through some of the smartest popular films of recent years *Translating Time* Bliss Cua Lim, 2009-09-21

Uses a postcolonial critique of the universality of historical time to propose a new way of considering the fantastic in cinema a prevalent trope in much Asian and Southeast Asian film **Civil Servants on the Silver Screen** Michelle C. Pautz, 2017-12-29

In the movies government often finds itself in a variety of roles from villain to supporting cast and rarely if ever the hero A frequent component of that role is the bureaucracy and as documented in *Civil Servants on the Silver Screen* Hollywood's Depiction of Government and Bureaucrats bureaucrats are routinely found on screen This book investigates how government bureaucrats are portrayed in the top ten box office grossing films from 2000 through 2015 Perhaps unsurprisingly government is generally portrayed poorly while individual government bureaucrats are typically depicted positively These images of government on screen are particularly important given the ability of movies to influence the attitudes and perceptions of its audiences The nature of these depictions and potential implications are considered as bureaucrats in film are categorized *Career Movies* Jack Boozer, 2010-01-01 Achieving the American Dream became inextricably linked with career business success after World War II as an increasingly consumerist America learned to define the dream through possessions and status Not surprisingly Hollywood films in the postwar years reflected the country's preoccupation with work and career success offering both dramatic and comedic visions of the career quest and its effects on personal fulfillment family relations women's roles and the creation or destruction of just and caring communities In this book Jack Boozer argues that the career business film achieved such variety and prominence in the years between 1945 and 2001 that it should be considered a legitimate film genre Analyzing numerous well known films from the entire period he defines the genre as one in which a protagonist strives for career success that often proves to be either elusive despite hard work or unfulfilling despite material rewards and status Boozer also explores several distinct subgenres of the career movie the corporate executive films of the 1950s the career struggles of single married and or parenting women the entrepreneurial film as it is also embodied in texts about immigrants and racial and ethnic minorities and business oriented femmes fatales the explosion of promotionism and the corporatization of employment and finally the blurring of work and private life in the brave new world of the televirtuality film **Movies and Midrash** Wendy I. Zierler, 2017-08-15 Finalist for the 2017 National Jewish Book Award in Modern Jewish Thought and Experience presented by the Jewish Book Council

Movies and Midrash uses cinema as a springboard to discuss central Jewish texts and matters of belief. A number of books have drawn on films to explicate Christian theology and belief but Wendy I Zierler is the first to do so from a Jewish perspective exploring what Jewish tradition text and theology have to say about the lessons and themes arising from influential and compelling films. The book uses the method of inverted midrash while classical rabbinical midrash begins with exegesis of a verse and then introduces a mashal parable as a means of further explication. Zierler turns that process around beginning with the culturally familiar cinematic parable and then analyzing related Jewish texts. Each chapter connects a secular film to a different central theme in classical Jewish sources or modern Jewish thought. Films covered include The Truman Show, truth, Memento, memory, Crimes and Misdemeanors, sin, Magnolia, confession and redemption, The Descendants, birthright, Forrest Gump, cleverness and simplicity, and The Hunger Games, creation of humanity in God's image among others.

**Looking at Movies** Richard Barsam, Dave Monahan, 2015-11-19 Looking at Movies is the most effective, engaging and widely adopted introduction to film analysis available. From its very first chapter, Looking at Movies provides students with all the tools they need to become perceptive viewers of film, including the most sophisticated and seamlessly integrated media resources that are rich with comprehensive analysis and assessment tools ever produced for a textbook in this market. Authoritative, accessible and of superior value, Looking at Movies offers instructors with abundant teachable resources to help students analyze movies critically and effectively.

**Indigenous African Language Media** Phillip Mpofu, Israel Ayinla Fadipe, Thulani Tshabangu, 2023-04-26 The book contributes to the sparse academic literature on African and minority language media research. It serves as a compendium of experiences, activities and case studies on the use of native language media. Chapters in this book make theoretical, methodical and empirical contributions about indigenous African language media that are affected by structural factors of politics, technology, culture and economy and how they are creatively produced and appropriated by their audiences across African cultures and contexts. This book explores indigenous African language media about media representations, media texts and contents, practice-based activities, audience reception and participation, television, popular culture and cinema, peace and conflict resolution, health and environmental crisis, communication, citizen journalism, ethnic and identity formation, beat analysis and investigative journalism and corporate communication. There are hardly any similar works that focus on the various issues relating to this body of knowledge. The book provides a valuable companion for scholars in various fields like communication, media studies, African studies, African languages, popular culture, journalism, health and environmental communication.

**Journalism Ethics Goes to the Movies** Howard Good, 2008 Journalism Ethics Goes to the Movies poses urgent questions about journalism ethics and offers candid answers.
