England, 2019-09-05 Looking for Learning Loose Parts won Highly Commended in the Creative Play Awards 2019 for Teaching Resources Looks for Learning Loose Parts is a full colour practical guide to inspire child led learning that's linked to current policy and the EYFS framework As each child progresses through their learning journey Early Years practitioners are expected to identify and understand what learning is taking place in every activity that a child is involved in Laura England creator of Little Miss Early Years uses her wealth of experience as an Early Years teacher to explore the learning that takes place when a child is tinkering with loose parts including tinker trays filled with nuts and bolts pompoms and play dough to combine construct and investigate with Loose parts are natural or synthetic materials and resources that have no pre planned use they can be moved combined with other resources lined up deconstructed and constructed again

They can capture a child's imagination, curiosity and creativity as they play with and manipulate them. This dip in and out book is linked to the Characteristics of Effective Learning and presents case studies, real life images and practical pointers to explore their use. With tips for setting up the environment to the adult's role in this child-led play, *Looking For Learning Loose Parts* is ideal for all Early Years practitioners searching for accessible ideas for using loose parts in their settings. *Looking for Learning* books are the number one tool for identifying learning opportunities in child-led play. All four books are packed full of tried and tested ideas for indoor and outdoor activities, helpful hints and tips and full colour photographs. Written by Laura England, known as Little Miss Early Years, these are a must-have for any nursery or pre-school. [Young Architects at Play](#) Ann Gadzikowski, 2020-12-29 When children build with blocks they are both literally and figuratively constructing their knowledge of the world. When we see children's construction play through the lens of architecture we are able to support and extend children's learning on all four STEM subjects: science, technology, engineering and math. *Young Architects at Play* is a guide for both teachers and parents and includes a diverse variety of activities and resources. More than 20 projects involve both traditional classroom materials like unit blocks as well as natural materials found objects, cardboard and authentic woodworking materials. Throughout the book Ann Gadzikowski makes meaningful connections between STEM learning and the power of stories, both the children's own narratives as well as the rich diversity of stories and illustrations from children's literature.

Handbook of Research on Innovative Approaches to Early Childhood Development and School

Readiness Betts, Anastasia Lynn, Thai, Khanh-Phuong, 2022-02-11 School readiness is as much about schools recognizing the existing capabilities and knowledge each child has when they enter school as it is about supporting children and families in their preparation for entering formal learning environments. Effective approaches that address learning variability must take these differences into account, recognizing and leveraging opportunities inherent in the child's ecosystem of resources. The *Handbook of Research on Innovative Approaches to Early Childhood Development and School Readiness* assembles the most current research and thought leadership on the ways in which innovative education stakeholders are working together to impact the most critical years in a child's life, the years leading up to and including kindergarten. Covering topics such as change, agency, experience, quality and social/emotional development, this book is a crucial resource for educational researchers, child development professionals, school administrators, pre-K teachers, pre-service teachers, program managers, policymakers, non-profit service organizations, early childhood EdTech developers, curriculum developers and academicians.

Making Play Work in Early Years Settings Dawn Rigby,2022-02-23 This book supports early years professional to make a play based curriculum work in practice

Why Play? Rae Pica,2024 In our current culture of pushed down academics and accountability early childhood professionals spend too much time justifying play for children Until that justification is no longer necessary this book will help those in early childhood education answer the question presented in the title Why Play Each chapter describes a different type of play offering information educators can use to advocate for each Every chapter also includes suggestions for putting practice into theory helping to ensure play becomes a greater part of the children s education Additionally Partnering with Parents offers recommendations for language and information educators can use to help parents understand that play is not separate from learning Why Play highlights some of the most popular types of play including dramatic and loose parts play but it also covers those considered

controversial risky rough and tumble and war gun and superhero play Whether used as a tool for advocacy or as a resource for information and ideas about play Why Play is a book for all ECE professionals who believe children should have the chance to be children and that child development should guide all of our practices with them **Making Play Just Right:**

Unleashing the Power of Play in Occupational Therapy Heather Kuhaneck, Susan L. Spitzer, 2022-05-19 At the heart of Making Play Just Right Unleashing the Power of Play in Occupational Therapy is the belief that the most effective way to ensure pediatric occupational therapy is through incorporating play The Second Edition is a unique resource on pediatric activity and therapy analysis for occupational therapists and students This text provides the background history evidence and general knowledge needed to use a playful approach to pediatric occupational therapy as well as the specific examples and recommendations needed to help therapists adopt these strategies *Supporting Young Children to Cope, Build Resilience,*

and Heal from Trauma through Play Julie Nicholson, Julie Kurtz, Lafeshia Edwards, Jonathan Iris-Wilbanks, Samantha Watson-Alvarado, Maja Jevgjavikj, Valentina Torres, 2023-04-11 Now more than ever there is a need for early childhood professionals to comprehensively integrate trauma sensitive practices into their work with children and families This essential resource offers instructional strategies teachers can use daily to support their students dealing with trauma in early learning environments Readers will learn to create opportunities for children to use their natural language play to reduce their stress to cope with adversity to build resilience and even to heal from trauma Nicholson and Kurtz provide vignettes case study examples textboxes photographs and descriptions of adapted therapeutic strategies ready for implementation in the classroom Practical and comprehensive this book is ideal for both prospective and veteran early childhood educators seeking to understand trauma informed practices when working with young children birth 8 in a range of environments

The Pre-K Home Companion Sherelyn R. Kaufman, Michael J. Kaufman, Elizabeth C. Nelson, 2016-07-29 This book is a one stop resource for parents and families facing decisions about how to provide their children the best educational experiences before kindergarten We know that early childhood learning experiences have a dramatic impact on the success and well being of children the community and the country Children who have positive early childhood experiences develop cognitive and socio emotional abilities that lead to positive school performance income family stability and health in turn producing particularly robust educational social and economic benefits for your community and our country This companion offers background on why early childhood education is important in your child s life It provides an overview of current research about how young children learn It suggests questions you may ask potential service providers about a program s policies and practices It empowers you to make the critically important decision about the best learning environment for your child A companion makes a journey more enriching while providing support and perspective We hope that this book will be helpful to parents and families as they make vital decisions about the welfare of their children and their community *Urban*

Biodiversity and Ecological Design for Sustainable Cities Keitaro Ito, 2021-03-23 This book highlights various designs for

urban green spaces and their functions It provides an interesting meeting point between Asian European and North America specialists researchers planners landscape architects studying urban biodiversity urban biodiversity and green space relations between people and biodiversity The most important feature of this book is the unique point of view from each contributor towards the relationship between nature and people in urban areas in the context of the ecosystem and biodiversity in urban areas and how to manage them All chapters explore and consider the relationship between humans and nature in cities a subject which is taking on increasing importance as new cities are conceptualized and planned These discussion and examples would be useful for urban ecology researchers biologists city planners government staff working in city planning architects landscape architects and university instructors This book can also be used as a textbook for undergraduate and postgraduate city planning architecture or landscape architecture courses Handbook of Curriculum Theory, Research, and Practice Peter Pericles Trifonas, Susan Jagger, 2024-02-22 This Handbook paints a portrait of what the international field of curriculum entails in theory research and practice It represents the field accurately and comprehensively by preserving the individual voices of curriculum theorist researchers and practitioners in relation to the ideas rules and principles that have evolved out of the history of curriculum as theory research and practice dealing with specific and general issues Due to its approach to both specific and general curriculum issues the chapters in this volume vary with respect to scope Some engage the purposes and politics of schooling in general Others focus on particular topics such as evaluation the use of instructional objectives or curriculum integration They illustrate recurrent themes and historical antecedents and the curricular debates arising from and grounded in epistemological traditions Furthermore the issues raised in the handbook cut across a variety of subject areas and levels of education and how curricular research and practice have developed over time This includes the epistemological foundations of dominant ideas in the field around theory research and practice that have led to marginalization based on race class gender sexuality ethnicity age religion and ability The book argues that basic curriculum issues extend well beyond schooling to include the concerns of anyone interested in how people come to acquire the knowledge skills and values that they do in relation to subjectivity and experience
