The Erotics of Grief Megan Moore, 2021-09-15 The Erotics of Grief considers how emotions propagate power by exploring whose lives are grieved and what kinds of grief are valuable within and eroticized by medieval narratives Megan Moore argues that grief is not only routinely eroticized in medieval literature but that it is a foundational emotion of medieval elite culture Focusing on the concept of grief as desire Moore builds on the history of the emotions and Georges Bataille's theory of the erotic as the conflict between desire and death one that perversely builds a sense of community organized around a desire for death The link between desire and death serves as an affirmation of living communities Moore incorporates literary visual and codicological evidence in sources from across the Mediterranean from Old French chansons de geste such as the Song of Roland and La mort le roi Artu and romances such as Erec et Enide Philomena and Floire et Blancheflor to Byzantine and ancient Greek novels to Middle English travel narratives such as Mandeville's Travels In her reading of the performance of grief as one of community and remembrance Moore assesses why some lives are imagined as mattering more than others and explores how a language of grief becomes a common language of status among the medieval Mediterranean elite

Painful pleasures Christopher Vaccaro, 2022-07-12 This timely volume ventures into the subject of sadomasochism in varied aspects of medieval life Saint's Lives and mystical treatises provide evidence of failed sadism and empowering masochism Literary culture in the form of epics and courtly tales preserve stories of eroticised power These exciting chapters join together to form a picture of medieval culture that is kinky in its practice and deeply psychological at its core

Sexuality and Memory in Early Modern England John S. Garrison, Kyle Pivetti, 2015-11-19 This volume brings together two vibrant areas of Renaissance studies today memory and sexuality The contributors show that not only Shakespeare but also a broad range of his contemporaries were deeply interested in how memory and sexuality interact Are erotic experiences heightened or deflated by the presence of memory Can a sexual act be commemorative Can an act of memory be eroticized How do forms of romantic desire underwrite forms of memory To answer such questions these authors examine drama poetry and prose from both major authors and lesser studied figures in the canon of Renaissance literature Alongside a number of insightful readings they show that sonnets enact a sexual exchange of memory that epics of nationhood cannot help but eroticize their subjects that the act of sex in Renaissance tragedy too often depends upon violence of the past Memory these scholars

propose re shapes the concerns of queer and sexuality studies including the unhistorical the experience of desire and the limits of the body So too does the erotic revise the dominant trends of memory studies from the rhetoric of the medieval memory arts to the formation of collective pasts
