Philosophy of Love Irving Singer, 2011-01-07 The author of the classic philosophical treatment of love reflects on the trajectory over decades of his thoughts on love and other topics In 1984 Irving Singer published the first volume of what would become a classic and much acclaimed trilogy on love Trained as an analytical philosopher Singer first approached his subject with the tools of current philosophical methodology Dissatisfied by the initial results finding the chapters he had written just dreary and unproductive of anything he turned to the history of ideas in philosophy and the arts for inspiration He discovered an immensity of speculation and artistic practice that reached wholly beyond the parameters he had been trained to consider truly philosophical In his three volume work *The Nature of Love* Singer tried to make sense of this historical progression within a framework that reflected his precise distinction making and analytical background In this new book he maps the trajectory of his thinking on love It is a partial summing up of a lifework partial because it expresses the author's still unfolding views because it is a recapitulation of many published pages because love like any subject of that magnitude resists a neatly comprehensive all inclusive formulation Adopting an informal even conversational tone Singer discusses among other topics the history of romantic love the Platonic ideal courtly and nineteenth century Romantic love the nature of passion the concept of merging and his critique of it ideas about love in Freud Schopenhauer Nietzsche Dewey Santayana Sartre and other writers and love in relation to democracy existentialism creativity and the possible future of scientific investigation Singer's writing on love embodies what he has learned as a contemporary philosopher studying other authors in the field and trying to get a little further This book continues his trailblazing explorations

Not Love Perhaps A. S. J. Tessimond, 2011-10-20 Arthur Seymour John Tessimond Jack to his family John in later life was born in Birkenhead in 1902 and made his living as an advertising copywriter but his true writing life was in poetry three volumes of which he published in his lifetime *The Walls of Glass* 1934 *Voices in a Giant City* 1947 and *Selection* 1958 Tessimond died in May 1962 two months shy of his sixtieth birthday and it would fall to Hubert Nicholson his friend and executor to make a posthumous selection of his work including a number of uncollected and unpublished poems *Not Love Perhaps* 1978 has at its heart the memorable title piece which contrasts the idea of romantic love that many waters cannot quench with the notion of a mutual companionship that enables two people to walk more firmly through dark narrow places

Pathologies of Love Judy Kem, 2019-12-01 *Pathologies of Love* examines the role of medicine in the debate on women known as the querelle des femmes in early modern France Questions concerning women's physical makeup and its psychological and moral consequences played an integral role in the querelle This debate on the status of women and their role in society began in the fifteenth century and continued through the sixteenth and as many critics would say well beyond

In querelle works early modern medicine women's sexual difference literary reception and gendered language often merge Literary authors perpetuated medical ideas such as the notion of allegedly fatal lovesickness and physicians published works that included disquisitions on the moral nature of women In Pathologies of Love Judy Kem looks at the writings of Christine de Pizan Jean Molinet Symphorien Champier Jean Lemaire de Belges and Marguerite de Navarre examining the role of received medical ideas in the querelle des femmes She reconstructs how these authors interpreted the traditional courtly understanding of women's pity or mercy on a dying lover their understanding of contemporary debates about women's supposed sexual insatiability and its biological effects on men's lives and fertility and how erotomania or erotic melancholy was understood as a fatal illness While the two women who frame this study defended women and based much of what they wrote on personal experience the three men appealed to male authority and tradition in their writings
