Law And Regulation Of Common Carriers In The Communications Industry Daniel L Brenner, 2018-03-14 This revised casebook plus commentary offers a basic introduction to the traditional regulation of telephone companies as

well as the new lines of businesses they have entered Drawing on historical and contemporary court decisions as well as on FCC and legislative materials Brenner documents and evaluates the past twenty years of regulation of the telecommunications industry In particular he traces the major regulatory changes from the time of AT T s single firm dominance to the increasingly competitive marketplace of today The law and literature necessary to understand the development and trends in telecommunications are voluminous and up until now have been difficult to locate in one place This book presents the critical concepts and shifts in communications policy coherently and concisely In this revised and expanded edition Brenner provides excerpts and comments upon the key decisions in the field ordering them in a readily accessible manner He assumes no specialized background in technology law or economics Brenner provides an ideal introduction to this increasingly important field for professionals as well as for scholars and students interested in communications and communications policy

Departmental annual report 2010-11 Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2012-04-13 Despite the impressive performance of the Foreign and Commonwealth Office in representing the UK s interests across the globe with what is in Governmental terms a particularly small budget the Foreign Affairs Committee believes that the FCO is under funded This situation has been exacerbated by the Spending Review 2010 and the lack of detail provided by the FCO and the BBC World Service as to exactly how the spending reductions target will be met is disappointing There are concerns about the steps taken by the FCO to adjust to its reduced budget reductions in the deployment of UK based staff overseas and the optimistic planned programme of property sales will have a detrimental impact on the ability of the UK to protect its interests overseas The establishment of the European External Action Service EEAS will place a further strain on the FCO s resources The Committee welcomes the appointment of Lord Williams of Baglan to the post of International Trustee with responsibility for the BBC World Service but reiterates its belief that a formal concordat governing the World Service s budget and output should be drawn up setting out the World Service s independence from budgetary pressures elsewhere in the BBC The budget cuts faced by the British Council will lead to the Council becoming a substantially different organisation by the end of the Spending Review period The greater emphasis that the British Council will place on commercial activity risks a diminution of the UK s influence and soft power

Demand for Communications Services - Insights and Perspectives James Alleman, Áine Marie Patricia

Ní-Shúilleabháin, Paul N. Rappoport, 2013-10-07 This volume grew out of a conference organized by James Alleman and Paul Rappoport conducted on October 10 2011 in Jackson Hole Wyoming in honor of the work of Lester D Taylor whose pioneering work in demand and market analysis has had profound implications on research across a wide spectrum of industries In his Prologue Eli M Noam notes that demand analysis in the information sector must recognize the public good characteristics of media products and networks while taking into account the effects of interdependent user behavior the strong cross elasticities in a market as well as the phenomenon of supply creating its own demand The second Prologue by

Timothy Tardiff and Daniel Levy focuses more specifically on Taylor's body of work in particular its practical applications and usefulness in analyses of and practices within the Information and Communications Technology ICT sector known in Europe and elsewhere as the Telecommunications Media and Technology TMT sector The remainder of the book is organized into four parts Advances in Theory Empirical Applications Evidence Based Policy Applications and a final Conclusion The book closes with an Appendix by Sharon Levin and Stanford Levin detailing Taylor's contributions using bibliometrics Not only featuring chapters from distinguished scholars in economics applied sciences and technology this volume includes two contributions directly from Lester Taylor providing unique insight into economics from a lifetime in the field What a worthy book Every applied researcher in communications encounters Lester Taylor's work Many empirical exercises in communications can trace their roots to Taylor's pioneering research and his thoughtful leadership This book assembles an impressive set of contributors and contributions to honor Taylor No surprise the collection extends far and wide into many of the core topics of communications and media markets The emphasis is where it should be on important and novel research questions informed by useful data Shane Greenstein Professor of Management and Strategy Kellogg School of Management Northwestern University For more than 40 years Lester Taylor has been a leader in the application of consumer modeling econometric techniques and microeconomic data to understand residential and business user behavior in telecommunications markets During that time he inspired a cadre of students and colleagues who applied this potent combination to address critical corporate and regulatory issues arising in the telecommunications sector This volume collects the recent product of many of these same researchers and several other devotees who go beyond empirical analysis of fixed line service by extending Prof Taylor's approach to the next wave of services and technologies These contributions including two new papers by Prof Taylor offer an opportunity for the next generation to learn from his work as it grapples with the pressing issues of consumer demand in the rapidly evolving digital economy Glenn Woroch Adjunct Professor of Economics University of California Berkeley
