The Age of Surveillance Capitalism
Shoshana Zuboff, 2019-01-15

The challenges to humanity posed by the digital future: the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new behavioral futures markets where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new means of behavioral modification. The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a Big Other operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first-century society: a controlled hive of total connection that seduces with promises of total certainty for maximum profit at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future if we let it.

Do You Believe In Magic? (A Wild Thing Book)
Laura Krantz, 2024-10-08

Inspired by her popular Wild Thing podcast, journalist Laura Krantz incorporates the scientific method and her journalistic skills to determine if magic might be real. In *Do You Believe in Magic*, magic spells and curses, hexes and potions, superstition and rituals. We've all heard stories of alchemists attempting to turn abundant lead into precious, rare gold. Or of poor, unfortunate souls asking potion masters to brew up unappetizing concoctions that will help them find love. And of course, we're familiar with curses, muttering magical words for the purposes of exacting revenge on an enemy or protecting a hidden treasure. Who wouldn't like the idea of special powers or control over the natural world? It seems pretty fun, even if it's just the stuff of fantasy books and movies. But a lot of what we call magic has grounding in real practices. In fact, magic is at the root of many scientific fields, from chemistry to botany to astronomy, and has been an important part of human culture for thousands of years. *Do You Believe in Magic* takes readers through a world where magic and science collide. What do they have in common? Where do they differ? What role has magic played in our history and the history of science? Why is magic still significant even when it doesn't seem to line up with reality? And is it

possible to be scientifically minded and still believe in magic Readers are encouraged to weigh the facts and go beyond their gut assumptions to stretch their imaginations and think about why magic and science might be two sides of the same coin Includes color illustrations an at home science magic experiment glossary bibliography and index A Wild Thing series The Search for Sasquatch Is There Anybody Out There Do You Believe in Magic *Legacy of Evil* Sharon Buchbinder,2017-10-13 When a wild mustang is shot in Montana renowned horse whisperer and telepath Emma Horserider is called in to calm the herd and find out what happened Once on scene she is almost killed by a bullet spewing drone and calls her black ops brother for back up Emma s help roars into her life covered in tattoos and riding a Harley Remote viewer Bronco Winchester takes the assignment because he is ordered to but he wonders what type of assistance his boss s sister needs That is until he sees Emma a valiant Warrior Woman proud of her Crow heritage Posing as a married couple Emma and Bronco go undercover to infiltrate and stop a hate group Both are anxious enough without the now growing attachment they feel for one another When the lives of many are on the line they are not sure if they will live or die let alone have a chance at love
