Manual Ps Vita:

Manual of Classical Literature Johann Joachim Eschenburg, Nathan Welby Fiske, 1849 Byzantine Military Manuals as Literary Works and Practical Handbooks Georgios Chatzelis, 2019-01-22 This book studies the *Sylloge Tacticorum* an important tenth century Byzantine military manual The text is used as a case study to connect military manuals with the challenges that Byzantium faced in its wars with the Arabs but also with other aspects of Byzantine society such as education politics and conventions in the productions of literary texts and historical narratives The book explores when the *Sylloge* was written and by whom It identifies which passages from classical or earlier works were incorporated in the *Sylloge* and explains the reason why Byzantines imitated works of the past The book then studies the extent to which the *Sylloge* was original and how innovation and originality were received in Byzantine society Despite the imitation the author of the *Sylloge* adapted and updated his material to reflect the current operational needs as well as the ideological cultural and religious context of his time Finally the book attempts to estimate the extent to which Byzantine generals followed the advice of military manuals and to explore whether historical narratives can be safely used to draw information as to how the Byzantines and the Arabs fought Therefore along with a detailed study of the *Sylloge Tacticorum* this monograph also addresses broader issues of the pen and the sword such as military manuals in connection with Byzantine warfare politics literature historiography and education *Parental Questionnaires as a Reliable Instrument for the Assessment of Child Language Development* Maria-José Ezeizabarrena, Melita Kovacevic, 2024-09-13 Language is crucial in child development Therefore general questions such as what are the possible challenges in language acquisition or such as how well the my child is doing are commonly present for researchers clinicians teachers and parents Parent child interaction offers a privileged setting to observe children s behavior in multiple communicative situations which often is only available to the parents caregivers For this reason within the broad range of methods used to assess children s development parental questionnaires are widely used being a non invasive and inexpensive instrument to obtain information which is otherwise difficult to obtain Data obtained with the many questionnaires covering various aspects of child development and communicative competence are equally relevant for basic research and everyday clinical practice Development and use of parental questionnaires as well as data interpretation frequently require an interdisciplinary and cross sector approach bringing together developmental psychologists and practitioners This interdisciplinarity is assumed but rarely addressed directly **The Art of Executing Well** Nicholas Terpstra, 2008-10-01 In Renaissance Italy a good execution was both public and peaceful at least in the eyes of authorities In a feature unique to Italy the people who prepared a condemned man or woman spiritually and psychologically for execution were not priests or friars but laymen This volume includes some of the songs stories poems and images that they used together with first person accounts and ballads describing particular executions Leading scholars expand on these accounts explaining aspects of the theater psychology and politics of execution

The main text is a manual translated in English for the first time on how to comfort a man in his last hours before beheading or hanging. It became an influential text used across Renaissance Italy. A second lengthy piece gives an eyewitness account of the final hours of two patrician Florentines executed for conspiracy against the Medici in 1512. Shorter pieces include poems written by prisoners on the eve of their execution, songs sung by the condemned and their comforters, and popular broadsheets reporting on particular executions. It is richly illustrated with the small panel paintings that were thrust into prisoners' faces to distract them as they made the public journey to the gallows. Six interdisciplinary essays explain the contexts and meanings of these writings and of execution rituals generally. They explore the relation of execution rituals to late medieval street theater, the use of art to comfort the condemned, the literature that issued from prisons by the hands of condemned prisoners, the theological issues around public executions in the Renaissance, the psychological dimensions of the comforting process, and some of the social, political, and historical dimensions of executions and comforting in Renaissance Italy.

The Crusades, Holy War and Canon Law James A. Brundage, 2024-10-28

This volume is concerned above all with the legal background and the juristic issues behind the ideology and practice of the medieval Crusades. This is an area that the author was the first to investigate systematically, and there are two particular reasons for his approach: one, the conviction that the historical phenomenon of the Crusades can only be adequately understood within the context of the legal systems that permeated the age; the other, that so much of the documentary evidence be it charters, decrees, even chronicles, was produced by people whose perceptions had been shaped by the law. A number of articles focus on the roles of individual crusaders or address ideological questions, including the very concept of Holy War. Others deal with practical issues and the nature of the obligations incurred by a crusader and examine the consequences these had both for the institutions of medieval Europe and for the crusader's own family relationships.

Ce recueil s'attache avant tout au contexte légal et aux questions juridiques qui se trouvent à la base de l'idéologie et de la pratique des Croisades au Moyen Âge. L'auteur a été le premier à entreprendre des recherches de façon systématique dans ce domaine. Deux raisons principales sont à l'origine de cette démarche: premièrement, la conviction que seule la connaissance du contexte des systèmes légaux dont l'époque était imprégnée permet de bien comprendre le phénomène historique des Croisades; deuxièmement, le fait que quantité de documents, témoins, chartes, décrets ou encore chroniques, sont l'œuvre de gens dont la perception était grandement influencée par la loi. Un nombre d'études se concentrent sur le rôle individuel de certains croisades ou s'adressent des questions d'idéologie y compris le concept même de la Guerre Sainte. D'autres traitent de questions d'ordre pratique, ainsi que de la nature des engagements contractés par les croisades, en examinant le

Schizotypal Personality Adrian Raine, Todd Lencz, Sarnoff A. Mednick, 1995-09-29

This book is devoted to schizotypal personality. It provides a comprehensive overview of our knowledge from some of the world's leading researchers in the field and includes reviews of genetics, neurodevelopment,

assessment psychophysiology neuropsychology and brain imaging Central themes are the exploration of categorical and dimensional approaches to the understanding of schizotypal disorder and its relationship to schizophrenia Valuable introductory and concluding chapters set in context the sometimes divergent opinions and findings presented by the book's contributors and there are reviews of methodological issues and assessment schedules for the benefit of researchers in the field In setting out to answer from phenomenological psychological and neurobiological perspectives the fundamental question What is schizotypal disorder and to develop coherent etiological models this book will serve as an authoritative resource for clinicians and researchers interested in this major personality disorder The Reference Catalogue of Current Literature ,1921 **Traditio** Johannes Quasten,Stephan Kuttner,1966 Catalogue of offprints from vols 1 20 in v 20 p 527 541 *The Month* ,1868 Anglo-Latin Literature Michael Lapidge,2004-10-01 The essays collected in the second volume are concerned principally with the tenth century renaissance of English learning largely in response to the initiatives of a small number of energetic scholars and teachers such as Dunstan and Ethelwold In combination these studies illustrate the idiosyncratic but advanced state of Anglo Saxon learning Resources in Education ,1980 **A Commentary on the Epistle to the Ephesians** John Muddiman,2001-01-01 In this new commentary Muddiman questions the assumption that if Ephesians is not by Paul it must be wholly accounted for as an example of post Pauline pseudepigraphy He explores an alternative that it is an authentic letter subsequently edited and expanded with the aim of adjusting the Pauline tradition to meet a new situation All the perspectives of major modern scholars are discussed and assessed particularly on the question of Ephesians relationship to Colossians The implications for the question of the authorship on Paul's theology are extensively explored **The Epistle to the Ephesians** John Muddiman,2006-06-09 The Epistle to Ephesians contains powerful statements of Pauline doctrine but many questions can be raised about its authorship and intended readership John Muddiman's exposition of this text explores these issues and their theological implications deploying the latest scholarship to provide a thorough and illuminating commentary on this epistle Genealogy of Popular Science Jesús Muñoz Morcillo,Caroline Y. Robertson-von Trotha,2020-10-27 Despite the efforts of modern scholars to explain the origins of science communication as a social rhetorical and aesthetic phenomenon most researchers approach the popularization of science from the perspective of present issues thus ignoring its historical roots in classical culture along with its continuities disruptions and transformations This volume fills this research gap with a genealogically reflected introduction into the popularization of science as a recurrent cultural technique The category popular science is elucidated in interdisciplinary and diachronic dialogue discussing case studies from all historical periods Classicists archaeologists medievalists art historians sociologists and historians of science provide the first diachronic and multi layered approach to the rhetoric techniques aesthetics and societal conditions that have shaped the dissemination and reception of scientific knowledge A Treatise on the History of Confession C.
