Any Questions? Dan Geffre, 1993 The 8-Step Beginner's Guide to Value Investing Freeman Publications, 2020-10-22

Despite what the mainstream financial media wants to tell you Investing is not an impossible game only the pros can master In fact Peter Lynch named America's Most Successful Money Manager says that by using a reliable and repeatable investing process ordinary investors can beat the pros But here are 3 big mistakes inexperienced investors make Mistake 1 Relying solely on social media and TV stock tipsters for their information Mistake 2 Rushing into hot sectors based on fear of missing out and buying poor companies at overvalued prices Mistake 3 Panic selling for a loss the first time their stock goes down and missing out on gains when it rebounds to new highs Now here's the good news By using our Rational Process Investing methodology individual investors can make consistent long term profits in the market Founded on timeless principles used by legendary investors like Warren Buffett You don't need a degree in finance Nor do you need to spend hours each day glued to financial media Just 2 hours per week is enough Which means you can get a head start by following the simple advice laid out in this book Even if you've never bought stocks before So if you're kicking yourself for missing out on big gains We'll show you how to find the next Facebook Netflix or Amazon Companies which can turn a modest investment of 500 into 30 000 or more It's not always some obscure technology company either There are amazing opportunities in industries many investors consider boring For example if you had invested just 99 in Southwest Airlines when they first went public you'd be sitting on over 82 000 today Here's just a fraction of what you'll discover inside The 1 mistake inexperienced investors make Avoid this error and you will make money Page 16 Forget Netflix this company is going to be the real winner of the digital streaming boom Page 111 Coca Cola or PepsiCo which is a better investment over the next 20 years Page 121 The Amazon of the Health Industry on track for 100% gains in the next 18 months Page 132 The truth about buying the dip Why most investors fail miserably at it and what to do instead Page 169 Your chance to buy the next Berkshire Hathaway for just 0.3% of the price of a single share of Warren Buffett's company Page 93 This software company has been growing 5x faster than the S P500 and you can still pick it up for less than 10 Page 145 If we only had 500 to invest in a single company This is what we'd buy Page 81 and much much more Speaking of Southwest Airlines If you had sold when share prices peaked your 99 would be worth over 152 000 Which is why on Page 183 we show you when to sell your stocks for maximum profits This is not a dense 600 page theoretical textbook It's written in plain English and free from repetitive technical jargon You'll find easy to follow advice plus concrete examples of everything we teach So even if you've never read a single investing book in your life You will understand how to become a successful long term investor To kickstart your investing journey today scroll up and click add to cart Intelligent Investing in Irrational Markets Panos Mourdoukoutas, Christopher Bates, 2025-09-01 Investing involves the basic principles of economics that help investors identify financial goals and constraints to come up with the right asset and portfolio allocation This second edition outlines the updated rules for investing in irrational markets

successfully It discusses the emotions that go into investing decisions the benefits or lack thereof of paying someone else to manage your money and the importance of a financial plan It also gives a thorough account of the asset classes to buy and sell including stocks and explores humans as both emotional and intelligent beings Investing is as the book details a game of both economics and psychology It will be of interest to both students and researchers of capital markets investments and securities behavioral finance and financial psychology
