organised Liszt's works by genre. This system of S numbers quickly became the standard for identifying and cross referencing the music of Liszt both in academic circles and by general musicians. In 2001 Maria Eckhardt and Rena Charnin Mueller introduced a new system with LW numbers in *The New Grove Dictionary* though its complexities and omissions have limited its use. The current Thematic Catalogue by Leslie Howard Minkyu Kim, Aidan M. Dica and Michael Short is an attempt to preserve and amplify the work list in a comprehensive and comprehensible way, retaining and extending the Searle enumeration. The thematic catalogue organises all of Liszt's works including original compositions, transcriptions, alternative versions and missing or doubtful works. It retains Searle numbers for continuity while expanding the list with newly discovered works to ensure a complete and coherent reference. It provides a connected view of multiple versions, transcriptions and revisions with cross references ensuring no version is overlooked or misrepresented. It includes full thematic incipits for all works, making identification of Liszt's pieces easier. It documents all known manuscripts, first editions and revisions along with detailed references to Liszt's correspondence and significant scholarly articles offering essential historical context for research.
