Belly Up Eva Darrows, 2019-04-30 There's a first time for everything. First time playing quarters. First time spinning the bottle. First totally hot consensual truck hookup with a superhot boy whose digits I forgot to get. First time getting pregnant. Surprised you with that one, didn't I. Surprised me too. I'd planned to spend senior year with my bestie slash wifey Devi Abrams, graduating at the top of my class and getting into an Ivy League college. Instead, Mom and I are moving in with my battle-axe grandmother, and I'm about to start a new school and a whole new life. Know what's more fun than being the new girl for your senior year? Being the pregnant new girl. It isn't awesome. There is one upside, though: a boy named Leaf Leon. He's cute, an amazing cook, and he's flirting me up hard, core. Too bad I'm knocked up with a stranger's baby. I should probably mention that to him at some point. But how? It seems I've got a lot more firsts to go.

The Digital Future of English Simone Murray, 2025-07-18 More than any other academic discipline, literary studies is the creation of print culture. How then can it thrive in the digital era? Early 1990s

predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology. Yet we have grown to experience the two media as complexly interdependent and even complementary. Clearly digital does not kill print. But literary studies in the digital era cannot simply resume business as usual. It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology. The digital era prompts a rethinking of literary studies' object of study as well as its methods, theories, audiences, and pedagogical practices. What counts as literature necessarily shifts in an age of proliferating born-digital texts and do-it-yourself DIY online publication. Where should literary studies sit institutionally, and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis? Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect? Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book-loving publics has never been technologically easier? Finally, how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial-age students? Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading. But these discussions still mostly confine themselves to demarcating our proper object of study. We need to think more expansively about digital technology's impact on the underpinning tenets of the discipline. Literary Media Studies is pitched at fellow literary scholars, book historians, media theorists, cultural sociologists, digital humanists, and those working at the interface of these converging disciplines. It models constructive engagement with contemporary digital culture. Most importantly, it brings a burst of sorely needed optimism to the question of literary studies' digital future.

Joycean Elements in F. Scott Fitzgerald's *The Great Gatsby* Barney Tanner, Bernard R. Tanner, 2007 This research monograph argues that Scott Fitzgerald consciously used a variety of Joycean devices in *THE GREAT GATSBY* and these devices were the result of close readings of Joyce's *DUBLINERS* and *ULYSSES*. The monograph breaks new ground in Fitzgerald scholarship and has implications for Joyceans as well. The author's research was first begun under the mentorship of Professor Wallace Stegner and has lasted over 35 years. Tanner also benefited from a correspondence with Edmund Wilson prior to Wilson's death. This study sets out to prove that Fitzgerald modeled numerous

elements of GATSBY on elements found in Joyce's ULYSSES FSF imitated Joyce's use of the first letter in each of the parts of ULYSSES There Joyce alluded to two matters 1 the first names of his characters and 2 the logical steps of a syllogism Fitzgerald enriched this device He developed three parts in his novel 3 3 3 and used the first and last letters of each of his 9 chapters for two purposes to repay in a bold and playful way his debt to Joyce and to honor Ernest Renan famed for his LIFE OF JESUS and a source of burlesque techniques employed in Gatsby This is just one example of a number of research issues raised by Tanner a number new to Fitzgerald scholarship Other chapters deal with FSF imitation of Joyce's Araby in Fitzgerald's story Absolution a precursor to Gatsby sources for Christian allusions and direct allusions to ULYSSES the shadowing and doubling of characters patterns of imagery and numeracy in topics and theme The work contains two appendices including a significant comparison of Trimalchio and THE GREAT GATSBY [Bud's Easy Research Paper Computer Manual](#) Alvin Baron, 2015-09-04 How to Book on Writing Research Papers for High School and College Keywords Research Paper Writing Thesis Bibliography Search First Draft Term Papers MLA APA Turabian Language Grammar
