In this important book Nicholas Hartlep and Daniel Scott s detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans As Hartlep and Scott write Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality Over and over again the media has been telling a single story about Asian Americans to the public for the past fifty years The consequence of this fabricated story is that it discourages others even Asian Americans themselves from believing in the validity of their struggles Linshi 2014 p 1 **American Record Guide** ,2002 **The American Catalog** ,1880 *Burroughs Unbound* S. Teaching for Dissent Sarah Marie Stitzlein,2015-11-17 Teaching for Dissent looks at the implications of new forms of dissent for educational practice The reappearance of dissent in political meetings and street protests opens new possibilities for improved democratic life and citizen participation This book argues that this possibility will not be fulfilled if schools do not cultivate the skills necessary for our citizens to engage in political dissent The authors look at how practices in schools such as the testing regime and the hidden curriculum suppress students ability to voice ideas that stand in opposition to the status quo Teaching for Dissent calls for a realignment of the curriculum and the practices of schooling with a guiding vision of democratic participation **Church Music Review and Official Bulletin of the American Guild of Organists** ,1923
