Poison Ivy Evan Mandery, 2025-03-18 Hailed as a staggering portrait of inequality in America, Philip Dray's *Poison Ivy* tells the bigger seedier story of how elite colleges create paths to admission available only to the wealthy despite rhetoric to the contrary. In a lively and trenchant Washington Monthly account, Evan Mandery, a Harvard graduate and current professor at a public college that serves low and middle income students, reveals how tacit agreements between exclusive Ivy plus schools and white affluent suburbs create widespread de facto segregation. And as a college degree continues to be the surest route to upward mobility, the inequality bred in our broken higher education system is now a principal driver of skyrocketing income inequality. Mandery contrasts the lip service paid to opportunity by so many elite colleges and universities with schools that actually walk the walk. Now in an accessible paperback format, *Poison Ivy* is a no-holds-barred takedown of Forbes that synthesizes fascinating insider information on everything from how students are evaluated, unfair tax breaks, and questionable fundraising practices to suburban rituals, testing, tutoring, tuition schemes, and more. This bold, provocative indictment of America's elite colleges shows us exactly what's at stake and what will be possible if we muster the collective will to transform it.

Understanding and Creating Digital Texts Richard Beach, Chris M. Anson, Lee-Ann Kastman Breuch, Thomas Reynolds, 2014-10-16 Given the increased use of digital reading and writing tools in the classroom, this book provides secondary and college English language arts teachers with activities and classroom examples for using a range of different digital tools: blogs, wikis, websites, annotations, Twitter, mapping, forum discussions, etc. to engage students in understanding and creating digital texts. It therefore integrates reading and writing instruction through goal-driven activities supported by uses and affordances of digital tools. This book also provides a framework for designing these activities that encourage students to define purpose and audience, make connections between digital texts and people, collaborate with others, employ alternative modes of communication, and gain new perspectives and constructing identities. Practices that are linked to addressing the high school English Language Arts Common Core State Standards. The book also describes ways to use digital tools to support these practices, for example, using digital tools to foster students' collaborative reading and writing. The book also describes use of digital feedback and e-portfolio tools to foster students' reflection on their uses of these practices.
