

Regardless of previous experience as a tractor operator, you must be thoroughly familiar with the location and use of all instruments and controls before operating this tractor. Check all instruments, immediately after starting, again upon reaching operating temperatures and at frequent intervals during operation to assure proper care through prompt detection of irregularities. If any of

the instruments do not register properly, stop the engine, locate and correct the cause immediately.

Be careful! Any attempt to operate the machine without sufficient knowledge may be a hazardous venture.

Islamic Law in Action Kristen Stilt, 2012-01-12 A dynamic account of the practice of Islamic law this book focuses on the actions of a particular legal official the muhtasib whose vast jurisdiction included all public behavior In the cities of Cairo and neighboring Fustat during the Mamluk period 1250 1517 the men who held the position of muhtasib acted as regulators of markets and public spaces generally They traversed their jurisdictions carrying out the duty to command right and forbid wrong and were as much a part of the legal landscape as the better known figures of judge and mufti Taking directions from the rulers the sultan foremost among them they were also guided by legal doctrine as formulated by the jurists combining these two sources of law in one face of authority The daily workings of the law are illuminated by the reports of the muhtasib in the vivid Mamluk era chronicles which often also captured the responses of the individuals who encountered the official The book is organized around actions taken by the muhtasib in the areas of Muslim devotional and pious practices crimes and offenses the management of Christians and Jews market regulation and consumer protection the specific markets for essential bread currency and taxes and public order The case studies presented show that while legal doctrine was clearly relevant to the muhtasib s actions the policy demands of the sultan were also quite significant and rules from both sources of authority intersected with social political economic and personal factors to create full and vibrant scenarios that reveal the practice of Islamic law

Women in the Mosque Marion Holmes Katz, 2014-09-23 Juxtaposing Muslim scholars debates over women s attendance in mosques with historical descriptions of women s activities within Middle Eastern and North African mosques Marion Holmes Katz shows how over the centuries legal scholars arguments have often reacted to rather than dictated Muslim women s behavior Tracing Sunni legal positions on women in mosques from the second century of the Islamic calendar to the modern period Katz connects shifts in scholarly terminology and argumentation to changing constructions of gender Over time assumptions about women s changing behavior through the lifecycle gave way to a global preoccupation with sexual temptation which then became the central rationale for limits on women s mosque access At the same time travel narratives biographical dictionaries and religious polemics suggest that women s usage of mosque space often diverged in both timing and content from the ritual models constructed by scholars Katz demonstrates both the concrete social and political implications of Islamic legal discourse and the autonomy of women s mosque based activities She also examines women s mosque access as a trope in Western travelers narratives and the evolving significance of women s mosque attendance among different Islamic currents in the twentieth century
