### **HIPAA**

Health Insurance Portability and Accountability Act – federal legislation that mandates confidentiality and protection of patients' personal health information. It defines the rights and privileges of patients for protection of privacy.

Confidentiality – act of keeping information private or secret; in healthcare, the nurse shares information about a patient only with other nurses or healthcare providers who need to know private information about a patient to provide care for them information can only be shared with the patient's consent

Advanced Directive – legal documents that provide instructions for medical care and only go into effect if the patient is unable to communicate their own wishes.

Patient Self-Determination Act is a federal statute that requires health care institutions to provide information to patients regarding their rights to make informed decisions about their care, including the right to create an advanced directive.

**Informed Consent** – a patient:

- is given full and complete information about the purpose of a study, procedure, data collection, potential harm and benefits, and alternative methods of treatment.

- is capable of fully understanding the research and the implications of participation

- has the power of free choice to voluntarily consent or decline participation in the research/procedure

- understand how the research maintains confidentiality or anonymity

- explanation of alternative procedures

Nurse's only responsibility when it comes to consent: witnessing.
