The Medical Carnavalesque Lisa Gabbert,2024-08-06 The practice of medicine is immersed in issues of life death and suffering in relation to the mortal body Because of this the medical profession is a fertile arena for folklore that serves to address these topics among physicians In *The Medical Carnavalesque* Lisa Gabbert argues that this extraordinarily difficult work context has led to the development of an occupational corpus of folklore backstage talk and humor that she calls the medical carnivalesque Gabbert argues that suffering is not only something experienced by patients but that the

organization practice and ethos of medicine can induce suffering in physicians themselves Featuring topics such as the institutionalized nature of physician suffering death related humor and talk stories about patient bodies and parodies of medical specialties The Medical Carnavalesque shows us how the culture of contemporary medicine uses travesty humor and inversion to address the sometimes painful and often transgressive aspects of doctoring The Medical Carnavalesque connects patient and physician suffering to laughter acknowledges suffering as an essential component of life and constitutes a way in which some physicians address the core philosophical and existential issues with which they regularly engage as they go about their daily work
