 $\frac{12}{12} \quad \frac{12}{12}$

$x = 11$

Challenging Mathematics In and Beyond the Classroom Edward J. Barbeau, Peter J. Taylor, 2009-04-21 In the mid 1980s
the International Commission on Mathematical Instruction ICMI inaugurated a series of studies in mathematics education by
commissioning one on the influence of technology and informatics on mathematics and its teaching These studies are
designed to thoroughly explore topics of contemporary interest by gathering together a group of experts who prepare a Study
Volume that provides a considered assessment of the current state and a guide to further developments Studies have
embraced a range of issues some central such as the teaching of algebra some closely related such as the impact of history
and psychology and some looking at mathematics education from a particular perspective such as cultural differences
between East and West These studies have been commissioned at the rate of about one per year Once the ICMI Executive

decides on the topic one or two chairs are selected and then in consultation with them an International Program Committee IPC of about 12 experts is formed The IPC then meets and prepares a Discussion Document that sets forth the issues and invites interested parties to submit papers These papers are the basis for invitations to a Study Conference at which the various dimensions of the topic are explored and a book the Study Volume is sketched out The book is then put together in collaboration mainly using electronic communication The entire process typically takes about six years The Cumulative Book Index ,1900 A world list of books in the English language
