The Muscular System Manual Joseph E. Muscolino, 2016-04-22 Joe Muscolino's The Muscular System Manual The Skeletal Muscles of the Human Body 4th Edition is an atlas of the muscles of the human body. This approachable yet detailed musculoskeletal anatomy manual provides both beginner and advanced students with a thorough understanding of skeletal muscles in a compartmentalized customizable layout. Each muscle spread shows the individual muscle drawn over a photo of the human body with an arrow to indicate the line of pull of the muscle and explains the muscle name, the origin of that name, Greek and Latin derivations, pronunciation, attachments, actions, eccentric contraction, function, isometric contraction, function, innervation to two levels of detail with predominant levels in bold, and arterial supply to two levels of detail. This new edition also features robust Evolve resources, an updated art program, and new chapter review and critical thinking questions that encourage you to apply what you have learned to prepare for practice.

**UNIQUE Overlay art** consisting of over 380 full color anatomical illustrations of muscles, bones, and ligaments drawn over photographs helps identify the positions of muscles and bones in the human body.

**UNIQUE Electronic Muscle and Bone Review Program** features a base photograph with a skeleton drawn in and a list of every muscle for each major region of the body so students can choose any combination of muscles and place them onto the illustration, allowing them to see not only the muscle attachments but also the relationship among the muscles of the region.

**Complete muscle coverage** in an easy-to-understand layout makes this text appropriate for novices to anatomy as well as intermediate and advanced students.

**Content organized by body region** and includes information on how muscles in that region function together and large drawings of the muscles of that region so you can go directly to the topic you are studying.

**Covers the methodology** for each muscle with information for learning muscle actions to explain the reasoning behind each action and encourage you to learn and not just memorize.

**A four color student friendly design** with sections clearly boxed throughout and checkboxes that help you keep track of what you need to learn and what you have mastered.

**Customizable format** with checkboxes and numbered lists in each muscle layout presents basic muscle information for the beginning student in bold type and more advanced information in regular type.

**Palpation boxes** include bulleted steps instructing how to palpate each muscle so you can apply this assessment skill in practice.

**Evolve website for instructors** includes **TEACH Resources**, a Test Bank, and an image collection so instructors can easily access all of the materials they need to teach their course in one place and track through the course management system provided via Evolve.

**Evolve website for students** includes access to audio of the author reading aloud muscle names, attachments, and actions for the muscles covered in the book, labeling exercises, and more to enrich your learning experience.
