Administration Lawrence C. Howard,Jerome B. McKinney,1998-03-10 This is a complete and up to date revision of the
 classic text for public administration implementing the rule of law as a fundamental issue in American democracy in pursuit
 of the common interest It presents public administration as a tension between the necessary exercise of power and the
 search for responsiveness to achieve maximum accountability from public servants The authors have initiated a new
 approach to the study of public administration by focusing on middle and lower level managers These are positions that most
 public servants will occupy for the bulk of their professional careers The book recognizes that most of the administration is in
 field offices in state and local government and in cooperation with the private and nonprofit sectors It then focuses on power
 and its potential for influencing the behavior of the bureaucracy to perform its goal oriented and balancing functions in a
 pluralistic open system This leads to the relationship between theories about administration and the actual practice and how
 best results imperative of accountability are achieved in the increasingly globalized environment **Services in the Aid to**
