Denton,Emily Van Court,2021-01-19 Emergency medical service providers serve as the primary immediate response to
emergencies of all kinds including natural disasters and acts of terrorism in the United States with states serving as the
regulatory agencies responsible for training scope of practice and continuing education for potential and working EMS
providers This text serves as a comprehensive guide to individuals in training to become emergency medical service
providers and complements Emergency Medical Technician EMT and Emergency Medical Responder EMR courses as the
primary classroom text consistent with National EMS Curriculum Standards and other industry guidelines Each chapter
addresses a relevant organ system and its physiology methods of assessment treatment recommendations along with a case
study to illustrate the topics at hand So much of what is involved in emergency medical services is based on practical and
applicable knowledge of situations and these case studies will provide students with exposure to the field work they will be
responding to Written with the context of COVID 19 implications in mind this is first EMT text of its kind produced after the
onset of the pandemic with considerations and citations from national and international emergency medicine journals to
