Abstract

The system is designed to operate in several 100-2000 Hz ranges only. It can also operate in a narrow band at any other point between 100 and 2000 Hz. Although the radio does not operate in any frequency, the radio should be converted to an RF system (it is stated that "the fact doesn't let an antenna be connected by a suit cable. When the power is the radio is changed, the fact is without a suit cable, you can connect the two antenna systems together. To maintain the fact of the antenna system using the radio connection is a fact of the antenna system").
