Christian College Todd C. Ream, Perry L. Glanzer, 2013-10-28 In 1975 Arthur F. Holmes published *The Idea of a Christian College*. At the time, he could not have imagined his book would gather such a large following. This work's thoughtful yet accessible style made it a long-standing choice for reading lists on Christian college and university campuses across the country and around the world. Countless numbers of first-year students have read and discussed his book as part of their introduction to the Christian college experience. However, enough has changed since 1975 in both the Church and Academy to now merit a full-scale reexamination. In this book, Todd C. Ream and Perry L. Glanzer account for changes in how people view the Church and themselves as human agents and propose a vision for the Christian college in light of the fact that so many Christian colleges now look and act more like research universities. Including topics such as the co-curricular common worship and diversity, Ream and Glanzer craft a vision that strives to see into the future by drawing on the riches of the past. First-year students as well as new faculty members and administrators will benefit from the insights in this book in ways previous generations benefitted from Arthur Holmes's efforts. Promoting Consumer Engagement Through Emotional

Branding and Sensory Marketing Gupta, Monika, Jindal, Priya, Bansal, Shubhi, 2022-12-09 Emotional impulses heavily influence the behavior of customers. Sensory marketing establishes an emotional connection between the company and the customers, thus yielding a positive response towards the brand. It has a strong influence not only on the perceptions but also on the choices of the customers. It assists the organizations in delivering a unique multisensory experience and capitalizes on new marketing opportunities. Therefore, businesses should carefully formulate sensory marketing strategies revolving around the details of offered product mix, prospective modes of communication, as well as point-of-sale actions. *Promoting Consumer Engagement Through Emotional Branding and Sensory Marketing* provides strategies for approaching customers through their senses to better formulate effective sensory tactics. It strengthens the research in communicating brand image, enhancing brand recognition, generating brand loyalty, and increasing brand appeal through sensory marketing. Covering topics such as customer engagement, brand experience, and service quality, this premier reference source is an indispensable resource for business leaders and executives, marketing professionals, brand specialists, students, and faculty of higher education, librarians, researchers, and academicians. The Loss of Happiness in Market Democracies Robert Edwards

Lane, 2000-01-01 Despite the fact that citizens of advanced market democracies are satisfied with their material progress, many are haunted by a spirit of unhappiness. There is evidence of a rising tide of clinical depression in most advanced societies, and in the United States, studies have documented a decline in the number of people who regard themselves as happy. Although our political and economic systems are based on the utilitarian philosophy of happiness, the greatest good for

the greatest number they seem to have contributed to our dissatisfaction with life This book investigates why this is so Drawing on extensive research in such fields as quality of life economics politics sociology psychology and biology Robert E Lane presents a challenging thesis He shows that the main sources of well being in advanced economies are friendships and a good family life and that once one is beyond the poverty level a larger income contributes almost nothing to happiness In fact as prosperity increases there is a tragic erosion of family solidarity and community integration and individuals become more and more distrustful of each other and their political institutions Lane urges that we alter our priorities so that we increase our levels of companionship even at the risk of reducing our income *Prevention* ,2006-07 *Prevention* magazine provides smart ways to live well with info and tips from experts on weight loss fitness health nutrition recipes anti aging diets
