Gutstein, 2000 A new developmental program that opens the door to lifelong social emotional growth *Mind/Body Techniques for Asperger's Syndrome* Ron Rubio, 2008-05-15 The mind body exercises in this book help young people with AS improve balance coordination and sensory awareness leading to greater self confidence and independence With photographs to show how exercises are done these techniques can have an immediate effect on how an individual moves thinks of him or herself and relates to others **Asperger Syndrome in Adolescence** Liane Holliday Willey, 2003-01-01 Reflecting the views of parents professionals and those with AS themselves this book tackles issues that are pertinent to all teenagers such as sexuality depression and friendship as well as topics like disclosure and therapeutic alternatives that are more specific to those with AS This book is an essential survival guide to adolescence *Making Sense of Art* Sandra R. Davalos, 1999 Visual arts activities for children with developmental disorders grouped under each of the five senses into expressive and craft activities **Internal Perception** Sara Dellantonio, Luigi Pastore, 2017-09-19 This book investigates how bodily information contributes to categorization processes for at least some conceptual classes and thus to the individual mastery of meanings for at least some word classes The bodily information considered is mainly that provided by the so called proprioceptive and interoceptive systems introduced by Sherrington The authors reconsider this in a new Gibsonian fashion calling it more generally proprioception which indicates the complex of all the bodily signals we are aware of and the qualitative experiences these give rise to The book shows that proprioceptive information understood in this sense

is essential for explaining among others how we develop broad categories such as animate vs inanimate concepts denoting bodily experiences such as hunger or pain as well as emotions and abstract concepts such as friendship and freedom and in accounting for how we master the meanings of the corresponding words in our language
